Notice of Interest to Championship Participants:

Under Irish Law, all horses moving from one location to another must be accompanied by their passports. It is in your own interest to ensure that this is the case. Failure to do so is an offence under Irish Law and is liable on summary conviction to result in a fine of up to €3,000. All passports must be registered with the name of the current owner.

Embryo Transfer: Where a foal is produced by this method, the dam's passport must bear a declaration dated, stamped, and signed by the stallion owner (or accredited practitioner where AI is involved) stating the date on which the dam was last covered (or inseminated) and the name of the covering stallion.

Department of Agriculture, Food and the Marine: Specific Requirements: Horses and Other Equines

Premises Registration:

As from 1 May 2012, any premises (which includes shows, fairs and markets) where horses or other equines are gathered must be registered with the Department. Owners/persons in charge of such gatherings are required to submit a completed application form for registration and to keep records of movements on/off their premises. Records must be retained for at least 3 years as they may be required by the Department for the purposes of tracing disease.

Records required are:

- The name and address of the owner/person in charge of the premises from which the equine came.
- Premises registration number from which the equine came
- Passport number/UEL number of the animal

It is important therefore that Show organisers should contact their local District Veterinary Office in advance so that consideration can be given to compliance with the requirements outlined above.

Any further information on the requirements for moving horses and equines to shows will be provided on the Department's website at

Department of Agriculture, Food and the Marine

IMPORTANT NOTICE:

Horse-riding is a dangerous sport and all competitors in Ridden Classes are strongly advised, for their own safety, to wear appropriate head gear which complies with up to date safety standards.

IMPORTANT NOTICE TO ANIMAL OWNERS INVOLVED IN SHOWING ANIMALS:

The Irish Shows Association would like to advise all animal owners who have their animals insured to have the insurance cover extended to cover them while showing animals at Shows, it may cost very little or nothing at all depending on who you are insured with.

Department of Agriculture, Food and Marine: Important information for organisers of shows and exhibitors of cattle:

Keepers wishing to show cattle are now required to obtain a certificate of compliance prior to the movement of an animal to the show. This ensures that animal(s) in question has the necessary TB, BR and BVD tests recorded on the Department's database and that the keeper presenting the animal is not restricted by the Department.

Certificates of Compliance can be obtained online from the animal identification and movement (AIM) system through the www.agfood.ie facility or from the Cattle Movement Notification Agency. When applying for a certificate of compliance, keepers should not specify a destination herd.

On the day of the show, the certificate of compliance should be presented to the Show secretary, along with the bovine passport for the animal.

The keeper and the show secretary will then sign the Movement Notification section of the Certificate which will then be sent to the local DVO for recording onto the AIM system. Please note that only cattle, for which a valid Certificate of Compliance is provided to the Show secretary can be shown on the day of the show.

Department of Agriculture, Food and Marine: Specific Requirement – Sheep Identification:

All sheep must be individually identified with appropriate ear tags issued in accordance with the requirements of the National Sheep Identification System (NSIS).

Movement Documentation:

All consignments of sheep being moved must be accompanied by a completed dispatch document. Individual details of each sheep in the consignment must be recorded on the document. Sheep from non restricted flocks only can be moved to shows. In the case of flocks restricted following diagnosis of scrapie, sheep possessing the ARR/ARR genotype only may be exhibited. The movement of the ARR/ARR genotype sheep must be accompanied by the relevant movement permit (SCR/10), which can be obtained from the District Veterinary Office in the county where the flock is located.

AIM Notification:

The movement of sheep to and from an Agricultural Show within the state must be recorded on AIM. This is done using a copy of the owners sheep dispatch document as follows:

1. The owner/keeper presents the signed and completed dispatch document to the show secretary who checks it to ensure that it is completed in full.
2. The show secretary fills in the MART section of the dispatch document with: (i) the show number (ii) the date of the move back to the source holding (iii) stamps it with the shows stamp (iv) signs the dispatch document
3. The show secretary then forwards the completed pink section of the dispatch document to the local DVO within 7 days of show movement.
4. The show secretary keeps white copy for his/her records.
5. The source/destination keeper keeps the bottom yellow copy to enter it into their flock register. Ultimate responsibility for fulfilling the requirement lies with the show secretary.

Flock Register:

All movements of sheep to and from shows must be recorded in the keepers flock register.

Exports to Northern Ireland:

All sheep must be accompanied by a TRACES intra-community trade certificate for ovine animals. A TRACES message, corresponding with the TRACES certificate, will be sent for each animal or consignment being dispatched to the show (this will be performed by department officials of the DVO). Exhibitors are advised to contact the show society in northern Ireland well in advance of any show to determine the suitability of the show for return of animals (e.g. premises and sheep status), and whether the authorities will have officials and veterinary staff present to supervise and process documentation for animals returning to origin. For further information on our website www.irishshows.org

3. Each animal must be transported direct to the Show and back to the herd owner's farm.

6. At the Show grounds steps must be taken to ensure that there is no contact between the animals.
7. If the herd has been listed for testing to a practitioner the whole herd must be tested and not merely those animals being transported to the Show.
8. Exhibitors should apply to their DVOs for the appropriate certificate of compliance, as early as possible, before the date of the first show at which they propose to show the cattle.

Irish Shows Association Notice:

After a number of submissions from affiliated Shows on the Judging of Calves and the need to have them judged by weight rather than by age at shows:

The Irish Shows Association Cattle Sub Committee have put forward the following recommendation on use of live weight for the cattle classes e.g. calves under 12 months not to exceed 460kgs and Autumn born calves and calves under 6 months, it recommends that weight should not exceed 320kg.

Another suggestion is to use no more than 1.7kg live weight gain per day from the birth date to the show date.

This proposal would also be suitable for Interbreed Pedigree Calf Championships.
