Sweets for Mom

Divine Chocolate, the only Fairtrade chocolate company in the world owned by cocoa farmers, has launched a new organic line. This is Divine's first organic line, and its first time sourcing cocoa from CECAQ-11, a co-operative of farmers on the island of São Tomé, located off the coast of West Africa.

Historically known as Chocolate Island, São Tomé is where some of the finest cocoa in the world originates. The new organic line is made with a higher cocoa content (85%), which means less sugar content and a rich, smooth flavor. Not only is the new line Fairtrade Certified, certified organic by the USDA, Non-GMO Project Verified, and vegan, but it is made without palm oil, soy or artificial flavors.

The new line includes 4 bars, each with ingredients that chocolate explorers will enjoy including 85% Dark Chocolate with Refreshing Lemon, 85% Dark Chocolate with Turmeric and Ginger, 85% Dark Chocolate with Blueberry and Popped Quinoa and 85% Dark Chocolate with Cocoa Nibs.

Purchase online at DivineChocolate.com and at Whole Foods, Earth Origins Market and Fresh Market.

Nice Pens for Mom

Graf von Faber-Castell's luxury writing instruments has its Guilloche Collection of writing instruments made of precious resin. Each one is engraved individually using a method otherwise reserved for jewelry or silver accessories. The barrel is then hand-lacquered and repeatedly polished. The result is a unique and most interesting surface texture.

No two writing implements are identical: each is an individual example of the craftsman's art.

Available nib widths are M (medium), F (fine), EF (extra fine), B (broad), OM (medium/ left slant) and OB (broad/ left slant). Purchase at [Write-on Sarasota](http://Write-on-Sarasota) or at <https://www.graf-von-faber-castell.us/>

The ZOS Wine Saver

This Mother's Day skip the flowers and buy her something she'll use. The ZOS Wine Saver is the only solution which eliminates 100% of the oxygen from an opened bottle of wine to preserve it for weeks to months. As soon as a bottle of wine is opened, it is exposed to air and begins to oxidize and change taste within a couple hours and spoil within a day or two.

By inserting the ZOS wine stopper and oxygen-absorbing cartridge into the bottle, wine drinkers can now enjoy their wine one glass at a time. Simply insert the ZOS Stopper into an open bottle of wine and within minutes, their non-toxic cartridge absorbs all of the oxygen in the bottle. Each cartridge lasts 5-15 bottles and replaced. The system comes with a tester to know when you need to replace your cartridge.

With ZOS, wine can be preserved for weeks or months so that it tastes the same as it did when it was last opened. It's priced at \$46.42 and available on Amazon or at zozwine.com.
