- Have you always wanted to learn how to build a brick wall or hang a door?
- Fed up with those nagging DIY jobs around the house?
- Do you want to learn with like-minded ladies under expert tuition?
- You are not alone. There has been a 92% increase in the levels of women enrolling on DIY courses in the last year alone!
- Space on this session is limited and so early booking is essential!

For a long time DIY work has wrongly been associated as a job just for men, but times have changed as women are picking up power tools and paintbrushes to leave a stamp on their properties. There are many advantages that come with being able to undertake your own repairs, the most obvious one being the money you will save in the long-run. Participants on our “Diva Days” end up saving a lot of money as they do not have to hire expensive tradesman to carry out routine home maintenance. Real learning only happens when you take the plunge and get your hands dirty. Our courses offer the unique mix of expert tuition and real hands on practice in a safe environment. **You will get dirty so old clothing is a must!**

The day will cover the basics in the following areas; however the level of detail will be determined by the group’s wishes:

<b>Plumbing</b> Valves, Radiators and Leaking Taps	<b>Carpentry</b> Hinges, Doors, Locks and Basic Joints
<b>Brickwork</b> Corners and Pyramids	<b>Plastering</b> Walls and Ceilings

**Course Cost** £95 to include a full day’s tuition. In addition all DIY Diva courses include materials, access to tools and tuition in how to use them safely. Safety footwear is a legal requirement for attending the session. We do have some available for loan or sale onsite. If you would like to purchase footwear just contact us no less than 14 days ahead of the course and we can arrange this for you.
