**MADE MY
DAY!**

Many of you probably think I spend too much time trying to create humor. At times I agree with you. A few days ago, I was enjoying one of my favorite island past times. Maybe you guessed it: trying to help customers even though I do not work at the hardware store any more.

A few days ago a long time customer ask me why she hadn't seen me at the store lately. Her question sparked one of my typical attempts at humor. I told her that I spent most of my time at the hardware store in town because it was so much cheaper.

Her response made my day. She said that they may be less expensive but you have the people that make the extra travel well worth while. I know that we have a very special group but it is always so nice to hear it from you.

Thank you!

Paul

**One Smart
Dude**

That Warren Buffet is one smart dude when it comes to money. He says he could end our federal deficit crisis in FIVE MINUTES!

Here's how: pass a law in congress that states that anytime the national debt exceeds 3% of the GDP (gross domestic product), all sitting members of congress shall become ineligible for re-election. Pretty simple huh?

Remember when the prices
looked like this?

yes... we're very happy you came!

We're also gratified...and complimented. Happy, because preparing the very finest food for you and serving it with thoughtfulness and good cheer is what we most like to do. Gratified, yes, because you are giving us the opportunity to serve you and prove our philosophy that good food, cleanliness and friendly hospitality can travel hand in hand. Complimented, because you have chosen Bob's in your quest for good things to eat. Fulfilling this quest is our purpose and our opportunity to contribute to this part of our great American standard of living. May I assure you that we will do everything possible, as we have since the opening of our first place in 1958, to make you feel "glad that you came to Bob's."

Cordially yours,
Bob Maw
