

# March 2018

Sun	Mon	Tue	Wed	Thu	Fri	Sat
<p>The units of study are Food; Growing Things and Food and Nutrition. The children will learn the different parts of plants, the life cycle of plants and how different plants and foods are grown, the different types of fruits and vegetables (root vegetables, foods that grow on bushes and trees, etc.). The vocabulary words are sprout, stem, roots, radishes, embryo, turnips, colander, organic, shuck, snap, shell, stem and flutter spinner seed. The letter of the alphabet are Nn, Zz, Ww, Ee and Aa. Parents read to your children regularly and please remember to sign and return your Volunteer/Parent/Child Interaction Forms that are sent home on a weekly basis.</p>
