

BULL-GUARD

The New Innovative

Stone Sealer System in The World.

To achieve a high-end look, some people prefer to install stone walls in their bathrooms. Stone walls add a natural, yet exotic look and feel to your bathroom, giving off a relaxing vibe. Having waterproof walls in your bathroom is important. If the walls are not waterproof, you could end up having a huge problem on your hands, such as mold, leaks, water damage, and more.

Also just to know Shower grout is just a mixture of sand, cement and water; so it is naturally porous and absorbent. Left unsealed, it can soak up dirt and mildew like a sponge and once it gets in... it can be time consuming to get out. You can seal the grout easily without breaking the bank. Sealer is available, sealing your grout at least once a year will help to keep mold and mildew at bay.

BULL GUARD SEALING SYSTEM, will Seal your shower wall no matter what it is “Glazed ceramic tiles, porcelain, Marble, Granite, Grout and more” and last up to 5 years only, due to the fact that shower or heavy traffic area.

To ensure that seal get in to all the crevasses Bull Guard seal is Sprayed on it, and several applications will be applied to the surface to achieve the max result.

To ensure that your shower stay sealed to or standard we will come once year to evaluate our sealing.

BULL GUARD SEALING SYSTEM
