The purpose of this illustration is to consider the Hebrew Alef Bet or alphabet of 22 letters being directly corresponding to the 22 chapters of the last book of the Bible, Revelation. The study will superimpose a linear timeline based on the sequential order of the 22-chapter division of Revelation to see if there is an encrypted confirmation that correlates to the meaning of the Hebrew letters. It is well understood by language experts that Hebrew is one of the classic examples of how the individual letters are also signified not only for their sound but for a numerical value and ancient pictograph. Based on this theory of there being a direct Hebrew letter to chapter correspondence to Revelation, there appears to be a striking direct correlation. And the meaning of the letter appears to sequentially match to the narrative of the same numbered chapter. The evidence for the letter to chapter theory will be presented in this study for a reason. However, there are so many alphabets in the same numbered chapter. This possible prophetic letter to chapter translation could be, yet another piece of the puzzle in establishing that the Rapture of the Bride of Christ is in Revelation. To provide a prophetic content regarding the Rapture, prior studies in Revelation have presented an alternate theory and evidence that there are in fact 7 ‘raptures’ throughout the sequence of the 22 chapters of the book of Revelation. It is accepted by some of the ‘rapture’ escape plan which is traditionally referenced in ‘The Rapture’ by then calculated the Church Age of 7 years. The sequence of these revelations comes after the patient of Christ when the ‘Restrainer’ is no more and a man seized with death.

1. Eden Restored
2. War in Heaven
3. The Church Age
4. The Tribulation
5. The Great White Throne Judgment
6. The Harvest of the Son of Man
7. The Bowls complete God

It has been understood that when man has been truly ‘raptured’ in the Bible and previously in the Old Testament as well. It must then synonymously refer to how the Bride of Christ is to be raptured. In so much it parallels to the Hebrew letter and script making a prophetic lesson.

Many also believe that, an Escape plan takes place. Most studies is of the importance of the Flood judgment to ensure an escape. This would compare the coming Time of the Great Tribulation and the ‘end of days’.

The book of Revelation blueprint in the Olive Discourse Luke 13 and Matthew 24 foretells the laying of the end of biblical prophecy as disclosed by Jesus. A person, that is one.

Enoch before the Flood.

The Tav concept of this amazing and incomparable ‘translation’ of Hebrew is one where we can finally paint the word being taken to Heaven without the use of the eye. The Tav concept of the Hebrew letter can be translated to the ‘end and elevation’ of the Purpose of the Book of Christ to come.
