*The market index data illustrates the hypothetical performance of several Strategic asset allocation models made up of different combinations of stocks and bonds.

The market index data shown above are for purposes of indicating general stock and bond market price movements during the periods shown and do not represent investment portfolios comparable to the Green Pastures Wealth Management LLC ("GPWM") Model Portfolios. The performance data shown represents past performance, which is not a guarantee of future results. Current performance may be lower or higher than the performance data cited. The volatility of such indices used for comparison may be materially different from the volatility of the Green Pastures Wealth Management LLC Model Portfolios due to differences in diversification and other factors. The performance of such indices is not an exact representation of any particular investment, as you cannot invest directly in an index. Such indices are unmanaged and do not reflect the impact of any management or performance fees. The performance results do not reflect the impact of taxes. Stocks are represented by the S&P 500 Price Index ("S&P") and bonds are represented by the Bloomberg U.S. Aggregate Float Adjusted Bond Index ("Bloomberg Agg"). Annual rebalancing is assumed in the Strategic asset allocation models. "S&P" = The S&P 500 Price Index, an unmanaged, market capitalization-weighted index of 500 stocks of leading large-cap U.S. companies in leading industries; gives a broad look at the U.S. equities market and those companies' stock price performance. The Bloomberg Agg = The Bloomberg U.S. Aggregate Float Adjusted Bond Index measures a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States - including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed securities of more than 1 year.
