

ALABAMA'S AMERICAN REVOLUTIONARY WAR SOLDIERS AND PATRIOTS

It is hoped that this database will be helpful in research of American Revolutionary Soldier and Patriots that once lived, died and are buried in Alabama. This information is taken from the various sources that are listed below.

This will be an on going project. It is planned to update the data once a year. Please feel free to send any documented information that you have about your ancestor or any of the Patriots and Soldiers listed.

As with any compilation of material, there will be typing errors, different ways of spelling names, and duplications. Thank you for your understanding that this project was taken on as a way of helping and not meant to be a professional quality undertaking. Depending on the size of your computer screen, you may need to scroll to the right to see all the information on each person.

Please use the sources listed below for further research. It was not possible to include all the information from each. If you find someone in whom you need more details, please use these or other sources that are available.

Remember that the configuration of Alabama counties changed from 1800 to 1900. At the time of their death a person may be listed in one county and now is listed in another county because the county lines changed and were renamed.
