

Star Goals

Write your **goals**. One against each **point** of the **star**. Put a time frame too!
Draw a solid **line** from the center to indicate **where** you feel **you are now**.
Draw a dashed **line** from the center to indicate **where you want to be**.
Remember to be realistic within your given time frame.
At the **end of the time** you gave yourself, draw a third **line** on the star, to **review your goal**. Did you achieve it? Why did you succeed or not?
