S5 - THE REAL STORY OF THE MONUMENTS MEN-AND WOMEN by DR. PATRICK MCGRADY

LIMIT 40

Many may recall the 2014 film *The Monuments Men*, directed by George Clooney and starring Clooney together with a host of other Hollywood greats. The movie was fine entertainment, but its two-hour length hardly sufficed for telling the accurate story of how the men and women of the Allies' Monuments, Fine Arts, and Archives section rescued and then protected hundreds of thousands of works of art that were stolen by the Nazis during World War II. This program discusses the almost inconceivable breadth of cultural theft that began to occur immediately following the Nazis ascendancy to power, and presents the true identities of some of those individuals who struggled to locate and return the looted items as the war ended. We will focus in particular on one of the lesser known of the Monuments Men, Kenneth C. Lindsay, who was not portrayed in the film but who nonetheless witnessed acts of courage that helped to ensure a significant portion of Europe's cultural heritage remained with its rightful owners.
