### Mr P Newton Blossomville

We have yet to experience a really cold period but so far after 7 months the product is meeting all our requirements and expectations and I would recommend to others.

# Mr B Houghton Conquest

Fitters were excellent, the system is working as expected and the support of the office staff has been outstanding. Thank you and always willing to give testimony to your prospective clients.

## Mr S Olney

We are delighted with the installed system and were very impressed with the professionalism of the installation team. They made every effort to go the extra mile during the inevitable installation problems. I would definitely recommend your firm to others.

### Mr B Stanford

Although there have been some issues with the installation initially the response from AES has always been prompt and courteous. Office staff have always presented a good company image. It would have been more helpful if the GDA process was better organized from the start, this has led to quite a long delay.
