JACQUELINE M. BISKUPSKI Mayor

DEPARTMENT OF PUBLIC UTILITIES

## CITY COUNCIL TRANSMITTAL

Patrick Leary, Chief of

Date Received: March 27, 2018 Date sent to Council: April 3, 2018

TO:	Salt Lake City Council Erin Mendenhall, Chair
FROM:	Laura Briefer, Director of Public Utilities
DATE:	April 4, 2018
SUBJECT:	Request for a Budget Briefing Proposed Public Utilities Budget for 2018-2019
STAFF CONTACTS:	Kurt Spjute, Finance Administrator (801-483-6755) Jesse Stewart, Deputy Director (801-483-6864) Jason Brown, Chief Engineer (801-483-6888)
COUNCIL SPONSOR:	Budget - Exempt
DOCUMENT TYPE:	Budget Request
<b>RECOMMENDATION:</b>	Approval of Public Utilities 2018-2019 Proposed Budget

**PROPOSED BUDGET SUMMARY:** 

# **Executive Summary**

Salt Lake City Department of Public Utilities (Department) is pleased to present its recommended budget for fiscal year 2018-2019 (FY2019). The Department is proposing numerous large capital projects spanning the next five years in the Water, Sewer, and Stormwater Utilities to address aging infrastructure, regulatory requirements, and growth. The largest projects are in the Sewer Utility to (1) construct a new Water Reclamation Facility (WRF) by 2025; and (2) upgrade sewer collection system capacity to support growth, primarily in the Northwest Quadrant of Salt Lake City.

The following items are the major budget issues for each of the Department's Utility funds:

Page 1 of 4

1530 South West Temple Salt Lake City, Utah 84115

WWW.SLCGOV.COM TEL 801-483-6900 Fax 801-483-6818

- Projected Water and Sewer rate increases to address capital infrastructure are as previously forecasted, including a water rate increase of 4% and a sewer rate increase of 15% for FY 2019.
- A Stormwater Utility rate increase is proposed in order to complete needed drainage collection projects and update the 1993 Stormwater Master Plan. Stormwater Utility rates have not increased since the riparian corridor fee was added in FY2010. Prior to that, rates have not increased in the Stormwater Utility since 1990.
- No rate adjustments are proposed for the Street Lighting Utility.
- Short term borrowing of \$5.3 million is proposed to delay expensive bonding by another year for the Water, Sewer and Stormwater Utilities. .
- Proposed personnel increase of 14 full-time equivalent (FTE) employees to manage capital projects and to provide for succession of key positions. The 14 proposed additional FTE's account for \$1.2 million in operational expenditures distributed across all funds.
- Operational costs account for insurance increases of 7% and a cost of living adjustment of 2.5%.
- A draft Public Utilities Rate Study and Impact Fee Analysis proposes structural adjustments that update the cost of service for each customer class, and addresses affordability in the Water and Sewer Utilities including a secondary water rate. The Rate Study is anticipated to be finalized in May. The Department is not presenting structural rate changes at this time given the timing and need for additional evaluation of the rate study recommendations. The Department may request an additional work session with the Council to discuss the rate study and effect of possible structural changes to water and sewer rates.

Utility Funds 2019 Fiscal Year	- 0	Operations		Capital	Debt	]	Fund Totals
Water	\$	62,888,877	\$	40,186,900	\$ 1,117,000	\$	104,192,777
Sewer		18,522,059		86,356,500	6,058,000		110,936,559
Storm		6,913,232		5,649,068	1,014,000		13,576,300
Lighting		2,860,117		2,605,000	103,000		5,568,117
Totals	\$	91,184,285	\$ 1	134,797,468	\$ 8,292,000	\$	234,273,753

#### Summary of proposed Utility budgets:

#### Water, Sewer, and Stormwater Utilities Bonds and Rates for the Next Five Years:

	Water		Sewer	Storm	
Bond Iss	ues/Rat	es			
Budget	2019	\$0 / 4%	\$4 million / 15%	\$1.3 million / 10%	
	2020	\$68 million / 4%	\$160 million / 15%	\$5 million / 6%	
	2021	\$0/4%	\$0/10%	\$0/4%	
	2022	\$26 million / 4%	\$188 million / 8%	\$0 / 4%	
	2023	\$0/4%	\$0/10%	\$0 / 0%	

#### Water Utility Summary

- Proposed rate increase of 4% for FY2019; annual 4% rate increases through 2023 is forecasted.
- Impact to the average monthly residential water bills will be \$1.79 for City residents and \$2.41 for County customers for FY2019.
- The Department is proposing to allocate 10.24 FTEs out of the 14 proposed new positions to various programs in the Water Utility.
- Metropolitan Water District of Salt Lake and Sandy (MWDSLS) charges the Department a flat fee for water. The proposed FY2019 budget accounts for a 3% increase in the flat fee, or a \$466,000 increase.
- Bonding is anticipated in FY2020 for \$68 million. This proposed bonding will be allocated primarily to two large water treatment plant upgrade projects for the Big Cottonwood Water Treatment Plant and the City Creek Water Treatment Plant.

#### Sewer Utility Summary

- Proposed rate increase of 15% for FY2019; forecasting annual 15% increase in FY2020, 10% in FY2021, 8% in FY2022, and 10% in FY2023. These rate increase projections are unchanged from last year's five-year projections.
- Impact to average monthly residential sewer bill will be about \$3.18 per month in FY2019, from \$21.20 to \$24.38 per month.
- Bonds are anticipated in FY2020 for the following major projects:
  - Construction of a new Water Reclamation Facility by FY2025. The new facility will maintain the same capacity of the existing facility with the option to expand capacity in the longer term if needed. The new facility will meet all federal and state water quality effluent requirements including new and future anticipated nutrient discharge regulations. Preliminary cost estimates for the new facility range from \$325 million to \$510 million. Costs will continue to be refined while the facility is under design this year.
  - Collection system lines are impacted by condition, age, and capacity. The airport expansion and Northwest Quadrant development will result in funding about \$44 million for FY2019 and average \$16.5 million from FY2020-22 in master planned collection system upgrades. The Department will be investing approximately \$94 million in sewer collection system capacity upgrades over the next four years.

#### **Stormwater Utility**

- Proposed 10% rate increase for FY2019. Impact to average residential monthly stormwater bills is 45¢ per month.
- Projected 4% to 6% rate increase for future years as capital projects double for two years.
- Short term borrowing is possible for FY2019 and is shown, plus a regular revenue bond of \$5.3 million is anticipated in FY2020 if projects continue as shown.
- Capital projects are driving projected rate increases. A drainage improvement project is proposed to reduce flood risk from 1700 South to Emigration Canyon. The estimated cost for this project is \$2 million. Red Butte and Gladiola drainage systems make up the bulk of other major projects.
- A stormwater quality audit was recently conducted by the US EPA and Utah DEQ. As a result of that audit, the Department is requesting to allocate 2.73 new FTEs for additional technical, compliance, and engineering needs.
- Personnel service costs are proposed to increase by \$330,000 due to insurance, COLA, and proposed personnel changes

#### Street Lighting Utility

- No rate increase for FY2019 or projected for the next several years
- Bonds issued in FY2017 for \$2.5 million for Enhanced Street Lighting Tiers 2 and 3 continue to help upgrade enhanced lighting zones.
- Energy efficiency lighting is also reducing power costs by 10-15% however the FY2019 utility budget was not reduced since energy costs were underestimated in prior year budgets.

#### PUBLIC PROCESS

The Department has held meetings with its Public Utilities Advisory Committee (PUAC) regarding this budget proposal. The proposed FY2019 budget was recommended by the PUAC to the Mayor on March 22, 2018.

The Department will include broad public engagement efforts regarding proposed rate increases through the budget process and prior to any rate increases taking effect.

Dated <u>March 26</u>, 2018

# **Executive Summary**

Salt Lake City Department of Public Utilities (Department) is pleased to present its recommended budget for fiscal year 2018-2019 (FY2019). The Department is proposing numerous large capital projects spanning the next five years in the Water, Sewer, and Stormwater Utilities to address aging infrastructure, regulatory requirements, and growth. The largest projects are in the Sewer Utility to (1) construct a new Water Reclamation Facility (WRF) by 2025; and (2) upgrade sewer collection system capacity to support growth, primarily in the Northwest Quadrant of Salt Lake City.

The following items are the major budget issues for each of the Department's Utility funds:

- Projected Water and Sewer rate increases to address capital infrastructure are as previously forecasted, including a water rate increase of 4% and a sewer rate increase of 15% for Fy2019.
- A Stormwater Utility rate increase is proposed in order to complete needed drainage collection projects and update the 1993 Stormwater Master Plan. Stormwater Utility rates have not increased since the riparian corridor fee was added in FY2010. Prior to that, rates have not increased in the Stormwater Utility since 1990.
- No rate adjustments are proposed for the Street Lighting Utility.
- Short term borrowing of \$5.3 million is proposed to delay expensive bonding by another year for the Water, Sewer and Stormwater Utilities.
- Proposed personnel increase of 14 full-time equivalent (FTE) employees to manage capital projects and to provide for succession of key positions. The 14 proposed additional FTE's account for \$1.2 million in operational expenditures distributed across all funds.
- Operational costs account for insurance increases of 7% and a cost of living adjustment of 2.5%.
- A draft Public Utilities Rate Study and Impact Fee Analysis proposes structural adjustments that update the cost of service for each customer class, and addresses affordability in the Water and Sewer Utilities including a secondary water rate. The Rate Study is anticipated to be finalized in May. The Department is not presenting structural rate changes at this time given the timing and need for additional evaluation of the rate study recommendations. The Department may request an additional work session with the Council to discuss the rate study and effect of possible structural changes to water and sewer rates

Utility Funds 2019 Fiscal Year	Operations	Capital	Debt	Fund Totals
Water	\$ 62,888,877	\$ 40,186,900	\$ 1,117,000	\$ 104,192,777
Sewer	18,522,059	86,356,500	6,058,000	110,936,559
Storm	6,913,232	5,649,068	1,014,000	13,576,300
Lighting	2,860,117	2,605,000	103,000	5,568,117
Totals	\$ 91,184,285	\$ 134,797,468	\$ 8,292,000	\$ 234,273,753

## Summary of proposed Utility budgets:

	Water		Sewer	Storm
Bond Issues/ Rates				
Budget	2019	\$0 / 4%	\$4 million / 15%	\$1.3 million / 10%
	2020	\$68 million / 4%	\$160 million / 15%	\$5 million / 6%
	2021	\$0 / 4%	\$0 / 10%	\$0 / 4%
	2022	\$26 million / 4%	\$188 million / 8%	\$0 / 4%
	2023	\$0 / 4%	\$0 / 10%	\$0 / 0%

Water, Sewer, and Stormwater Utilities Bonds and Rates for the Next Five Years:

## Water Utility Summary

- Proposed rate increase of 4% for FY2019; annual 4% rate increases through 2023 is forecasted.
- Impact to the average monthly residential water bills will be \$1.79 for City residents and \$2.41 for County customers for FY2019.
- The Department is proposing to allocate 10.24 FTEs out of the 14 proposed new positions to various programs in the Water Utility.
- Metropolitan Water District of Salt Lake and Sandy (MWDSLS) charges the Department a flat fee for water. The proposed FY2019 budget accounts for a 3% increase in the flat fee, or a \$466,000 increase.
- Bonding is anticipated in FY2020 for \$68 million. This proposed bonding will be allocated primarily to two large water treatment plant upgrade projects for the Big Cottonwood Water Treatment Plant and the City Creek Water Treatment Plant.

## Sewer Utility Summary

- Proposed rate increase of 15% for FY2019; forecasting annual 15% increase in FY2020, 10% in FY2021, 8% in FY2022, and 10% in FY2023. These rate increase projections are unchanged from last year's five-year projections.
- Impact to average monthly residential sewer bill will be about \$3.18 per month in FY2019, from \$21.20 to \$24.38 per month.
- Bonds are anticipated in FY2020 for the following major projects:
  - Construction of a new Water Reclamation Facility by FY2025. The new facility will maintain the same capacity of the existing facility with the option to expand capacity in the longer term if needed. The new facility will meet all federal and state water quality effluent requirements including new and future anticipated nutrient discharge regulations. Preliminary cost estimates for the new facility range from \$325 million to \$510 million. Costs will continue to be refined while the facility is under design this year.
  - Collection system lines are impacted by condition, age, and capacity. The airport expansion and Northwest Quadrant development will result in funding about \$44 million for FY2019 and average \$16.5 million from FY2020-22 in master planned collection system upgrades. The Department will be investing approximately \$94 million in sewer collection system capacity upgrades over the next four years.

## **Stormwater Utility**

- Proposed 10% rate increase for FY2019. Impact to average residential monthly stormwater bills is 45¢ per month.
- Projected 4% to 6% rate increase for future years as capital projects double for two years.
- Short term borrowing is possible for FY2019 and is shown, plus a regular revenue bond of \$5.3 million is anticipated in FY2020 if projects continue as shown.
- Capital projects are driving projected rate increases. A drainage improvement project is proposed to reduce flood risk from 1700 South to Emigration Canyon. The estimated cost for this project is \$2 million. Red Butte and Gladiola drainage systems make up the bulk of other major projects.
- A stormwater quality audit was recently conducted by the US EPA and Utah DEQ. As a result of that audit, the Department is requesting to allocate 2.73 new FTEs for additional technical, compliance, and engineering needs.
- Personnel service costs are proposed to increase by \$330,000 due to insurance, COLA, and proposed personnel changes

## Street Lighting Utility

- No rate increase for FY2019 or projected for the next several years
- Bonds issued in FY2017 for \$2.5 million for Enhanced Street Lighting Tiers 2 and 3 continue to help upgrade enhanced lighting zones.
- Energy efficiency lighting is also reducing power costs by 10-15% however the FY2019 utility budget was not reduced since energy costs were underestimated in prior year budgets.

# **BUDGET SUMMARY**

- Total Department Budget (Capital and Operations) is \$234,273,753, or a 12.35% increase from the FY2018 adopted budget of \$208,519,913.
- The Department's total proposed operating budget is \$91,184,285, an increase of 3% or \$2,657,189. This includes a \$1 million decrease in technical services. Personnel costs are projected to increase \$2.4 million which includes 14 new FTEs, a 2.5% COLA, and a 7% increase in insurance for medical premiums. Water purchases from Metropolitan Water District will increase 3% over last year. Other Department operating expenses increased \$237,576 or 1.3%.
- The Department's total proposed capital budget is \$134,797,468 and debt service is \$8.3 million. Capital purchases budgeted at \$11 million is \$2.5 million more than budgeted last year for purchases.
- The Department's total debt service for FY2019 is \$8.3 million. Debt service (bond expenses) is projected to increase 9.9% or \$745k from last year as new Sewer Revenue Bonds sold in 2017 will impact debt service in FY2018. The forecasted bonds for FY2019 can be delayed 12 months to FY2020.
- The Department's total revenues for FY2019 are projected to be \$139,481,997; this is a nearly \$13.9 million increase compared to FY2018 because of rate increases and \$8.5 million was recently received in FY2018 as no-interest State loan that will assist with Northwest Quadrant development. This loan and the 2017 bond issue helps delay bonding until FY2020.
- A \$ 5.3 million short term gap financing option is included for the Sewer Utility and Stormwater Utility in FY2019. The FY2020 planned revenue bond is \$233 million with a 30 year or longer issue period coinciding with the life of the new WRF and the customers who will most benefit during the repayment life of the bonds.
- Bonded debt service expenses for the Sewer Utility are expected to increase to \$19 million by FY2022. This cost is \$8 million less than predicted in the FY2018 budget as rates will help pay a larger portion of the new plant than previously anticipated.
- Total FY2019 Department revenues are projected at \$139,481,997 million. The Department plans on balancing the budget with \$94,791,756 million of reserves in all Utility funds, reserves include the remaining \$60 million from the 2017 bond issue, and possible short term borrowing if needed.
- As noted in the executive summary, a rate study is currently in draft that proposes changes to the water and sewer rate structures, possible changes to base lighting fees and a new secondary water rate. Included in the study is fee increases for services and some suggested new fees. These are not impacting the budget, and rate structure changes whether adopted July 1 or not has no impact on this budget as the rates are revenue neutral.

## • Special Programs

- < Assistance of low income affordability program for County abatement (includes water, sewer and refuse discounts).
- < The Department has dedicated \$3.5 million for the next 6 years to replace the old radio and foot method of reading water meters. The automated meter instrumentation (AMI) or tower system is a move to real time data from meter to computer. AMI will reduce costs of meter reading, allow customers to access water consumption information in real time, assist with water conservation programs and allow customers to identify property-side water leaks immediately.
- < Rain Barrel Sales Program continues.
- < UTA Partnership with Utility customer service and City Transportation for HIVE Trax passes.
- < HomeServe Water and Sewer Lateral Warranty Program for City customer's private insurance as contract expires in early FY2019.
- Renewable Energy Hydro-electric generation gravity fed in pipe turbines ready but is in negotiation with Rocky Mountain. The Parley's system is scheduled to generate renewable power in FY2021.
- < Mountain Accord/Central Wasatch Commission contribution of \$200,000.
- < Enhanced lighting efficiency and wiring upgrades from bond proceeds began in FY2017 and will continue through FY2019.
- < Private Lighting \$20,000 from General Fund to assist special neighborhoods

## **Revenue Forecast and Water Availability**

Department revenues are generally predictable for all funds except water which is based on changes in seasonal use due to weather. A cooler, wetter summer and spring will reduce water demand and sales. Last year was one of the warmer seasons on record and revenues were higher than budgeted. The Department's water conservation rate structure and conservation education have and continue to be effective as customer's sensitivity to water usage has been proactive. The current water availability and storage reservoirs will still have adequate coverage for FY2019 despite the much lower than normal snow pack. Water revenues are forecasted on a normal or average expected usage.

## **DEPARTMENT BUDGET HIGHLIGHTS**

Below is a summary of the Department's overall proposed budget. As shown, this overall budget is proposed to increase 12.35% or \$25.7 million from the FY2018 adopted budget of \$208 million. The increase over last year's budget is largely due to upcoming capital projects that increased \$21.9 million.

	UTILITY BUDGET EXPENSES						
2018/19	OPERATIONS	DEBT SERVICE	CAPITAL	TOTAL	ADOPTED PERCENT CHANGE		
Water Utility	\$62,888,877	\$1,117,000	\$40,186,900	\$104,192,777	24.20%		
Sewer Utility	18,522,059	6,058,000	\$86,356,500	\$110,936,559	3.95%		
Stormwater Utility	6,913,232	1,014,000	\$5,649,068	\$13,576,300	6.05%		
Street Lighting	2,860,117	103,000	2,605,000	\$5,568,117	9.21%		
Total	\$91,184,285	\$8,292,000	\$134,797,468	\$234,273,753	12.35%		

The Department's schedule of proposed rate increases through FY2023 is shown below. The proposed rate increases help maintain a reasonable level of cash reserves and prepares the Department for planned future capital and operational needs. The Department is recommending rate increases in FY2019 for the Water, Sewer and Stormwater Utilities because of the capital infrastructure needs. No rate increase is proposed for Street Lighting Utilities in FY2019.

	Projected Rate Increases				
	Water	Sewer	Stormwater	Street Lights	
2018-19	4%	15%	10%	0%	
2019-20	4%	15%	6%	0%	
2020-21	4%	10%	4%	0%	
2021-22	4%	8%	4%	0%	
2022-23	4%	10%	0%	0%	

## Additional Personnel

The Department has identified needed positions to accomplish large capital projects and for succession planning. The current number of FTE positions for the Department is 408.5. The Department is proposing to add the following 14 positions:

- Four engineering support positions to accomplish infrastructure projects.
- One watershed position to help with increased source water protection tasks due to additional management requirements in the Wasatch watersheds.
- One water rights assistant to assist with the Utah Lake/Jordan River water right adjudication and to plan for succession.
- Three maintenance positions to handle old lines connected to new meter change outs.
- Two Stormwater technicians

- One stormwater compliance position
- One pre-treatment inspection writer
- One payroll office facilitator vacated by human resource transfer

#### Metropolitan Water District Water Purchase Impact to Budget

The Metropolitan Water District of Salt Lake and Sandy (MWDSLS) uses a flat rate structure. The chart below shows the projected MWDSLS cost increases and the approximate corresponding impact to water rates for budget purposes. This year water purchases from MWDSLS will cost \$15.9 million. MWDSLS' ongoing capital repayment continues to be \$7.5 million. Annual payments/purchases to MWDSLS are 36% of the water's operational budget.

Three year Planned Metropolitan Rate Increases					
	Rate	Cost to	Percent of Revenue		
	Increase Department to Offset Metro				
2018-19	3%	\$465,868	0.70%		
2019-20	3%	\$479,845	0.70%		
2020-21	3%	\$494,240	0.70%		

## **Capital Improvements**

The Department's CAP (Capital Asset Program) program and Asset Management Program has greatly improved the prioritization of the Department's capital needs. All infrastructure needs are assessed on criticality and condition. A condition rating of "1" is new, with the "5" rating indicating a more urgent condition. Criticality is a consequence of the effect that infrastructure failure may have, including harming customers and property. A "5" criticality rating indicates there is a higher risk of service disruption or impact to the customers. Projects of high criticality and condition ratings receive funding priority. Listed below are the Department's major projects for the proposed FY2019 budget:

- Water line replacements are budgeted at \$12,708,000.
- Reservoirs are budgeted at approximately \$4,304,000.
- Water service connections that include meters, new connections and meter replacements have a nearly fixed annual budget of \$3.3 million with \$1.4 million for replacing older radio drive-byes with automated meters. This is a multi-year program to address the Department's approximately 92,000 meters.
- Water treatment plants have 12 total projects totaling \$5.2 million. These include continuation of Supervisory Control & Data Acquisition (SCADA) system upgrades, sedimentation basins projects over four years, laboratory upgrade, sludge collection system retrofit, and drying bed pipelines.
- The Department re-evaluated the original scope of the new WRF, and has consolidated the delivery into a single methodology as proposed within the FY2019 budget. This package consolidation was considered necessary to facilitate the aggressive schedule required to meet the FY2025 nutrient regulatory deadline,

manage simultaneous construction packages, facilitate design standardization and operability, implement facility wide cost controls, and to manage the critical path schedule. The Department has chosen the CM-GC (Construction Manager-General Contractor) delivery model. The FY2019 budget pinpoints several key delivery contracts that facilitate construction of the new WRF. It is anticipated that the design of the new WRF and the construction of the Bio-Mechanical Dewatering Facility will be initiated in FY2019 as outlined within the proposed budget. The estimated cost for the new WRF facility is currently at \$390.9 million.

- Master planned sewer collection line replacements, collection system upgrades and development are \$56 million. Orange Street 500 South Interceptor, 700 south capacity upgrades, 500 south diversion pump station and 700 South lift station including North Beck Street to the treatment plant account for \$42 million of the budget. There are 50 smaller projects that make up the other \$12 million.
- Stormwater State, City and County driven projects total \$2 million that include Gladiola 500 south to 900 south, 1300 East, and Indiana Avenue to 3400 West.
- The newest flood mitigation project is for 1700 South to Emigration Storm Drain that will be \$2.8 million for FY2019 and FY2020.
- Stormwater also proposes \$532,000 for four Riparian Corridor projects along Emigration Creek and near the 10<sup>th</sup> North Lift Station.
- Street lighting efficiency projects for base lighting comprise \$1 million. Enhanced lighting improvements and high efficiency lighting and renovations financed in part by the \$2.5 million 2017 bond issue will assist in paying for \$1.3 million planned for this fiscal year.

# WATER UTILITY ENTERPRISE FUND

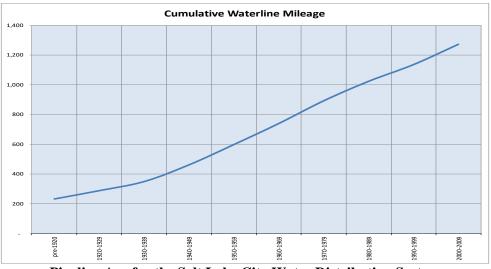

#### Major Budget Issues for FY2019

- A 4% rate increase—approximately \$1.79 per average residence per month increases budgeted revenue by \$2.8 million to help the Department meet its capital and operations objectives. Rates are projected to increase 4% annually through FY2023. The Department anticipates bonding of \$94 million for the next five years, maintaining adequate cash reserves and a strong debt service ratio.
- The Department plans to invest \$35.6 million in capital improvements for Water Utility infrastructure in FY2019. The capital improvement program continues with consistency in supporting a water system that reliably delivers quality water to customers and replaces worn out infrastructure.
- The Department expects a \$465,868 or 3% increase in the price of water from Metropolitan District of Salt Lake and Sandy for FY2019.

#### Water Infrastructure Background

The Salt Lake City Water Distribution System is one of the oldest and largest systems west of the Mississippi River with 1,119 miles of 12" or smaller distribution lines, and 180 miles of large transmission mains for a total asset inventory of 1,299 miles of pipe with over fifty pressure zones. The service area covers the Salt Lake City corporate boundaries as well as the east side of the Salt Lake Valley to the mouth of Little Cottonwood Canyon—a total of 134 square miles. The graph below shows the historical age of the system water lines. There is a continual need to repair and replace pipe segments to maintain service and reduce emergency break repair costs and impacts to the public.

The Department's asset management program has included investments over the past few years in use of new technology to assess the condition of the large water transmission mains to assure repair and replacement is completed with minimal impact to the public.

Pipeline Age for the Salt Lake City Water Distribution System

## **Analysis of Estimated Revenue**

An analysis of the estimated revenue contained in the Department's recommended FY2019 Budget for the Water Utility is as follows:

Revenue (Water)	Amended Budget 2017-2018	Proposed Budget 2018-2019	Difference	Percent
Water Services Fees	\$70,470,525	\$73,289,346	\$2,818,821	4.00%
Interest	553,382	375,000	(178,382)	-32.23%
Interfund charges	2,814,186	3,037,985	223,799	7.95%
Other gains	50,000	50,000	0	0.00%
Impact fees	500,000	500,000	0	0.00%
Contributions	1,205,000	1,205,000	0	0.00%
From (To) Reserves	20,694,880	25,735,446	5,040,566	24.36%
TOTAL	\$96,287,973	\$104,192,777	\$7,904,804	8.21%

Budgeted total revenues increase by \$7,904,804 or 8.21% with \$5.0 million needed from cash reserves for operations and capital improvements. Water fees are adjusted based on the proposed rate increase of 4%.

<u>Water Sales and Services</u>: The proposed revenue for water sales and services includes a proposed 4% rate increase—approximately \$1.79 per average residence per month-- to generate an additional \$2,818,821 in metered sales.

<u>Interest Income</u>: The Department anticipates interest income to decrease <\$178,382> as reserve funds are invested in capital improvements.

<u>Interfund Charges</u>: The Water Utility is reimbursed by Sewer, Stormwater, Street Lighting Sustainability, and Hive program for services related to billing. The Water Utility is increasing the amount of the reimbursements \$223,799 based primarily on increased IMS charges and increased banking fees. Actual FY2017 costs incurred are allocated based on the number of bills and budgeted for reimbursement if FY2019.

Other gains: No Change.

Impact Fees: No Change.

Contributions by Developers: No change is budgeted.

<u>Reserve Funds</u>: The Department plans to use \$25.7 million of reserve funds to balance the capital improvement needs. Budgeted use of reserve funds is \$5,040,566 more than the FY2018 budget or an increase of 24.36%.

## Analysis of Estimated Expenditures

The expenditure budget for the Department is proposed to increase \$7,904,804 or 8.21% from the FY2018 budget. The proposed budget for FY2019 by major category is as follows:

	Amended	Proposed		
Major Expenditure	Budget	Budget		
Category (Water)	2017-2018	2018-2019	Difference	Percent
Personnel services	\$20,585,385	\$22,069,746	\$1,484,361	7.21%
Materials and supplies	3,900,830	4,218,280	317,450	8.14%
Charges for services	36,105,858	36,600,851	494,993	1.37%
Debt service	918,809	1,117,000	198,191	21.57%
Capital outlay	5,630,091	4,614,400	(1,015,691)	-18.04%
Capital improvements	29,147,000	35,572,500	6,425,500	22.05%
TOTAL	\$96,287,973	<b>\$104,192,777</b>	7,904,804	8.21%

<u>Personnel Services</u>: Employee costs are estimated to increase \$1,484,361 or 7.21%. The water utility budget anticipates and increase of 10.24 FTE's for Water Utility's portion of 14 new employees across the Department. The FY2019 budget includes 2.5% COLA and a 7% increase in costs of employee insurance premiums.

<u>Materials & Supplies</u>: The proposed budget for materials and supplies of \$4,218,280 increases \$317,450 or 8.14% from FY2018's amended budget of \$3,900,830 for the following reasons:

- Small tools and equipment increases \$86,200
- Repair materials \$176,000
- Laboratory, building, and grounds supplies \$42,100
- Thirteen other items netting an increase of \$13,150

<u>Charges for Services</u>: The proposed budget for charges and services will increases 494,993 as explained below:

- Water Purchases from Metropolitan Water District increase \$465,868
- Data processing IMS increases \$192,348
- Utilities increase \$108,999
- Payments in lieu of tax increase \$77,515
- Technical services decrease <\$273,680>
- Several other charges decrease a net amount of <\$76,057>

<u>Debt Service</u>: - In compliance with the outstanding bond, Series 2017 Refunding Bond, budgeted debt service payments increase \$198,191.

<u>Capital Outlay</u>: The proposed Water Utility budget for capital outlay for FY2019 is \$4,614,400. The budget includes \$1,500,000 for Watershed Land, \$30,000 for water rights, \$1,029,500 for 18 vehicle replacements and 3 new vehicle purchases, \$927,300 for field equipment, \$240,000 for pumping equipment, \$462,000 for treatment plant equipment, \$170,000 for telemetry, \$44,000 for office furniture & equipment, and \$211,000 for other non-motive equipment.

<u>Capital Improvement Program</u>: The Department's proposed CIP budget for FY2018 is \$35,572,500. Capital project summary by facility types are as follows:

Proposed Water Capital Improvement Program Budget for Fiscal Year 2018-2019		
Type of Project	Budget Amount	
Treatment plants	7,245,000	
Water Service Connections	6,050,000	
Pumping Plant Upgrades	890,000	
Reservoirs	4,304,000	
Water Mains & Hydrants	12,708,000	
Wells	3,700,000	
Culverts, flumes & bridges	400,500	
Landscaping	275,000	
Maintenance buildings	0	
Total 2018-2019 Capital Improvement Program	\$35,572,500	

# SEWER UTILITY ENTERPRISE FUND

## Major budget issues for FY2019

- A new Water Reclamation Facility is planned to be constructed by 2025 and will start major design in FY2019. The total cost for the new WRF is estimated between \$350 million and \$450 million; costs will be refined during the design process.
- Sewer collection system capacity upgrades that are anticipated at nearly \$100 million over the next few years.
- Planned revenue bonds of \$433 million in the next five years begins again in FY2019-2020 for the new WRF and sewer collection lines. A short term bond anticipation note is planned for the FY2018 budget as gap financing if the 2017 bond proceeds are used prior to FY2020.
- Sewer rates will remain as previously projected at 15% in FY2019, 15% in FY2020, 10% in FY2021, 8% in FY2022, and 10% in FY2023.
- Continued capital replacement and improvement of sewer lines remains at about \$10 million per year for the next 5 years.

#### New Water Reclamation Facility by 2025

The FY2019 sewer budget continues to addresses federal and state water quality standards, including the nutrient removal standard, effective in FY2025. The Department is anticipating investing between \$325 million and \$510 million for the new WRF.

The proposed sewer budget for FY2019 has \$23.3 million planned projects at the WRF, of which \$18.4 million is directly for the new facility and the remaining to keep the existing plant functioning. Department preparation for a new facility includes \$2.0 million for an influent screening building.

Forecast Future	Forecast Future Rate Increases				
2018/19	15%				
2019/20	15%				
2020/21	10%				
2021/22	8%				
2022/23	10%				

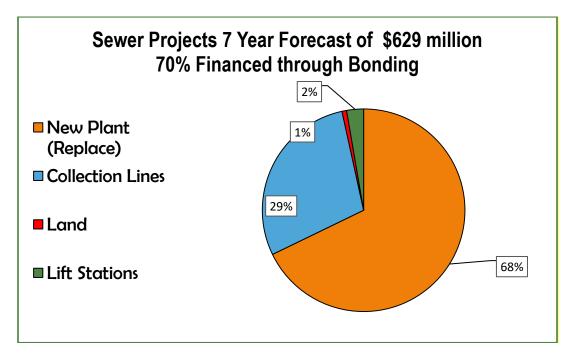

## **Bond Issues Anticipated**

The Department has forecasted budgeting bond issues of \$433 million through FY2025 to minimize rate increases as a blend of pay-as-you-go and borrowing. This incorporates a 30 year payback on bonds for intergenerational equity payback on the new WRF Facility. The investment strategy makes use of the City's professional financial advisors for measuring rising debt service and debt service ratios that also fit

standards required by external rating agencies. The Department intends to maintain its triple AAA rating to limit the costs of borrowing. The anticipated bond issuances in the next six years are as follows:

Planned Bond Issues		
2018/19 short term note	\$4,000,000	
2019/20	\$160,000,000	
2021/22	\$188,000,000	
2023/24	\$85,000,000	

The Illustration below show the percentage of projects in the four main categories in the Sewer Fund. The Department forecasts that it will issue \$437 million in revenue bonds (Three main issues) to finance a total of \$629 million for all Sewer projects in the chart. This figure includes the new WRF and improvements in the collection system through FY2025.

The \$437 million in bonds plus rate increases will go toward financing the budgeted plan of \$426.5 million in a new WRF Facility, \$180.8 million in collection system capacity upgrades and other worn out lines and lift stations that will also assist the needs for the Northwest Quadrant and Airport and others areas of restricted capacity flows through and from the west side to the treatment plant. Bond funds will also go toward Lift station projects of \$17 million and a required land purchase of \$4.6 million.

## Sewer Collection Line Rehabilitation

The FY2019 budget includes \$39.8 million for collection line improvements. An investment of \$32.4 million is budgeted for a master plan improvements such as the \$12.5 million for the 700 South capacity upgrades, other regular line improvements of \$1.5 million, County, State, and City related projects are \$1.9 million and other projects of \$4 million make up the \$39.8 million planned for FY2019.

## Lift Station Rehabilitation

The FY2019 budget includes a total of \$17 million for lift station projects. Lift station rehabilitation will include three significant lift stations: \$1. 9 million is budgeted for the 4000 West lift station, \$2.6 million is budgeted for the 750 North 5600 West lift (Amazon) station, and \$12 million is budgeted for the 700 South master plan lift station project. The FY2019 budget also includes \$500,000 for completion of three smaller lift station projects.

## **Closure of the Northwest Oil Drain Canal Remediation**

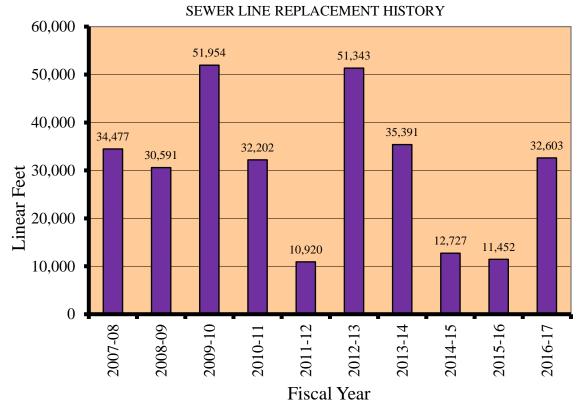

The Northwest Oil Drain Canal near the Water Reclamation Facility has continuing work to close the remediation site. The Department in cooperation with Utah DEQ, US EPA, BP, and Chevron is budgeting \$300k in the Sewer Utility and \$200k in the Stormwater Utility. The budget reflects the full costs including the 2/3 reimbursement from Chevron and British Petroleum.

## Sewer Infrastructure Background

The sewer collection system (658 miles in 2016) is a very challenging environment; hydrogen sulfide gases, sediment, roots and other factors affect the competency of the collection lines. Because of the environment of the collection system there is a continual need to repair and replace bad pipe segments. More than 50% of the sewer collection system is more than 85 years old (see chart below). Sewer Utility Capital Improvement Program's goal is to rehabilitate at least 1% of the aged collection system every year (see line replacement chart).

## Pipeline Age & miles for the Salt Lake City Sewer Collection System

. Sewer System Restoration Program in linear feet

#### **Analysis of Estimated Revenue**

The FY2019 budget shows a revenue decrease of <\$30,584,598> million or <21.61%> to \$110,936,559 from the \$141,521,157 in the FY2018 amended budget. The decrease is cause by a reduction in the budgeted use of reserve funds. An analysis of the estimated revenue contained in the Department's Recommended Budget is as follows:

	Amended Budget	Proposed Budget		
Revenue (Sewer)	2017-2018	2018-2019	Difference	Percent
Sewer Services Fees	\$32,712,188	\$37,677,666	\$4,965,478	15.18%
Interest	1,263,356	1,052,000	(211,356)	-16.73%
Permits	70,000	70,000	0	0.00%
Other	165,000	165,000	0	0.00%
Bond / Note Proceeds	0	3,985,000	3,985,000	0.00%
Impact Fees	700,000	700,000	0	0.00%
Contributions	2,020,000	2,020,000	0	0.00%
Sale of Property	20,000	20,000	0	0.00%
From (To) Reserves	104,570,613	65,246,893	(39,323,720)	-37.60%
TOTAL	\$ 141,521,157	\$ 110,936,559	(\$30,584,598)	-21.61%

## **Explanation of Revenue**

<u>Sewer service fees</u>: Sewer service fees are expected to increase \$4,965,478, 15%, or approximately \$3.18 per month for the average residential with the proposed rate increase. The rate increase is needed to finance the capital improvement program and debt service of future related bond issues.

<u>Interest Income</u>: Interest income is expected to decrease \$<\$211,356> as cash balances are invested in capital improvement projects.

Permit fees: Permits are expected to remain constant with no change.

Other income: Other income is expected to remain constant with no change.

<u>Bond / Note Proceeds:</u> The department anticipates the possibility of ensuring the continuation of capital projects by raising \$3,985,000 from short-term financing, such as bond anticipation notes, as cash held by a trustee from the 2017 bond issue is applied to projects. The Department estimates that the short term financing arrangement will allow the Sewer Utility to postpone a bond issuance until FY2020 and to avoid or defer approximately \$2.5 million in bond interest expense.

Impact Fees: No change is budgeted.

<u>Contribution by developers</u>: No change is budgeted.

<u>Reserve Funds</u>: Reserve funds of \$65,246,893 mostly from the 2017 Bond issue will provide the additional financing gap needed to finance the Sewer Utility's budgeted capital projects in FY2019. Budgeted use of reserve funds decreases \$39.3 million from the FY2018 budget.

## **Analysis of Estimated Expenditures**

The FY2019 budget proposes a decrease of <\$30,584,598> million or <21.61%> to \$110,936,559 from the \$141,521,157 in expenditures in the FY2018 amended budget. The proposed budget for FY2019 by major category is as follows:

	Amended	Proposed		
Major Expenditure	Budget	Budget		
Category (Sewer)	2017-2018	2018-2019	Difference	Percent
Personnel services	\$9,717,084	\$10,375,345	\$658,261	6.77%
Materials and supplies	1,892,620	1,934,720	42,100	2.22%
Charges for services	7,128,365	6,211,994	(916,371)	-12.86%
Debt services	5,532,045	6,058,000	525,955	9.51%
Capital improvements	115,637,743	80,410,000	(35,227,743)	-30.46%
Capital outlay	1,613,300	5,946,500	4,333,200	268.59%
TOTAL	\$141,521,157	\$110,936,559	(\$30,584,598)	-21.61%

## **Explanation of Expenditures**

<u>Personnel Services</u>: Budgeted employee costs will increase \$658,261 or 6.77%. The sewer utility budget anticipates 2.95 additional FTEs for Sewer Utility's portion of 14 new employees across the Department. The FY2019 budget includes 2% COLA and a 7% increase in costs of employee insurance premiums.

<u>Materials & Supplies</u>: The Sewer Utility's budget for this category increases \$42,100. These changes are:

- Small tools and equipment increase \$10,800
- Laboratory supplies increase \$10,300
- Computer supplies increase \$7,000
- City building supplies increase \$5,000
- Permits increase \$4,000
- Eleven other items net increase \$5,000

<u>Charges for Services</u>: The budget for charges and services decreases <\$916,317>reflected in the following areas:

- Data processing increases \$75,000
- Payment in lieu of tax increases \$61,725
- Fleet maintenance increases \$25,000
- Travel and training increases \$15,700
- Utilities decrease <\$4,839>
- Other charges and services decrease <\$25,262>
- Administrative service fee decreases <\$50,000>
- Risk management decreases <\$175,000>
- Technical services decrease <\$840,000>

<u>Debt Service</u>: - The annual debt service budget increased \$525,955 in FY2019 in accordance with the debt service schedules of outstanding bond issues. Future bonds will increase debt service payments when they are issued.

<u>Capital Outlay:</u> - The proposed capital outlay budget for the FY2019 budget is \$5,946,500. The FY2019 capital outlay budget includes \$4.6 million for land, \$222,500 for a vehicles and trucks, \$517,000 for field maintenance equipment, \$370,000 treatment plant equipment, \$10,000 for telemetry, \$34,000 for office furniture and equipment, and \$193,000 for other non-motive equipment.

<u>Capital Improvements</u>: The proposed capital improvement program for FY2019 includes line upgrades and expansion, initial projects associated with the new WRF and maintaining

Г

the old plant, lift stations improvements related to collection line redistribution, and the proposed finalization of environmental requirements in the Northwest Oil Drain. General project types budgeted for FY2019 are listed below:

٦

Proposed Sewer CIP Budget for Fiscal Year 2018-2019			
Type of Project	Budget Amount		
Treatment Plant	\$23,310,000		
Collection Lines	39,775,000		
Lift Stations	17,025,000		
Maintenance and repair shops	0		
Landscaping	300,000		
Total 2018-2019 Capital Improvement Program	\$80,410,000		

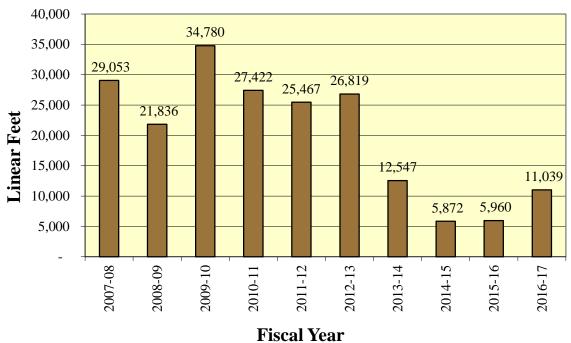

# STORMWATER UTILITY ENTERPRISE FUND

## Major Budget Issues for FY2019

- A proposed rate increase of 10% or approximately \$0.45 per equivalent residential unit (ERU) per month. Dwindling cash reserves, stronger regulatory requirements and infrastructure needs are drivers for the proposed rate increase. Additional rate increases between 4% and 6% are projected through FY2022.
- The Stormwater capital improvement budget includes \$750,000 for lift stations and \$3,683,500 for 16 collection line improvement projects including drainage improvements on 1700 South, Gladiola Avenue, and 1300 East.
- The amount budgeted for riparian corridor projects is \$500,000 along Emigration creek and near the 10<sup>th</sup> North Lift Station.
- The Northwest Oil Drain Canal near the Water Reclamation Facility has continuing work to close the remediation site. The Department in cooperation with Utah DEQ, US EPA, BP, and Chevron is budgeting \$300,000 in the Sewer Utility and \$200,000 in the Stormwater Utility. The budget reflects the full costs including the 2/3 reimbursement from Chevron and British Petroleum.
- The Stormwater Utility in participation with the Sewer Utility may utilize some short term financing to raise an additional \$1.3 million for FY2019 to be paid back with the issuance of bonds in FY2020.
- Possible Bonding in FY2020 of \$5.3 million for flooding mitigation projects of 1700 South and 1300 East that continue from FY2019.

## Stormwater Infrastructure Background

The Drainage Master Plan was completed in 1993. The projects identified in the Master Plan provide direction and areas that may or have already been completed. In the last ten years 40.1 miles of storm drain pipe has been installed (see graph next page). Some of the major projects that have been completed in the last 15 years are also shown on the table in the next page. The Fiscal Year 2019 budget includes \$700k to begin an update of the Drainage Master Plan to plan for changing climate conditions and green infrastructure.

## STORMWATER LINE INSTALLATION HISTORY

#### New Drainage Pipe Installed in the Last 10 Years

2006	900 South Storm Drain	\$16m	
2007	CWA #2 Pump Station	\$1.2m	
2008	City Creek Diversion		\$4m
2009	Upgrade Oil Drain Station	\$700k	
2012	Folsom Storm drain	\$8m	
2013	500 South pump station	\$1m	
2017	2100 East 2200East Storm Drain \$1.2 m	ı	
	Westside Drainage Channels (year	ly progra	am)
	Replace Cross Drains in Ave (yea	arly prog	(ram)

Major Drainage Projects in past 10 Years

## Analysis of Estimated Revenue

An analysis of the estimated revenue anticipated in the budget for the Stormwater Utility is as follows:

	Amended	Proposed		
	Budget	Budget		
Revenue (Storm)	2017-2018	2018-2019	Difference	Percent
Operating Sales	\$8,050,000	\$8,855,000	\$805,000	10.00%
Interest	65,820	33,000	(32,820)	-49.86%
Impact fees	200,000	200,000	0	0.00%
Contributions	516,000	650,000	134,000	25.97%
Other	1,000	1,000	0	0.00%
Bond / Note	0	1,345,000	1,345,000	
From (To) Reserves	5,169,421	2,492,300	(2,677,121)	-51.79%
TOTAL	\$14,002,241	\$13,576,300	(\$425,941)	-3.04%

#### **Explanation of revenue**

<u>Operating Sales</u>: A rate increase of 10% or about \$0.45 per ERU per month is proposed raise \$805,000 to cover capital improvements, debt service in future years and operational needs.

<u>Interest Income</u>: Interest earned will decrease <\$32,820> as amounts from reserves continues to decrease cash balance.

Impact Fees: No change.

<u>Contributions by Developers:</u> Increase of \$134,000 for reimbursed cost sharing from oil companies related to Northwest Oil Drain remediation.

Other Fees: No change.

<u>Bond / Note Proceeds:</u> The department anticipates the possibility of needing to raise \$1,345,000 from short-term financing, such as bond anticipation notes, as cash reserves are applied to projects. The Department estimates that the short term financing arrangement will allow the Stormwater Utility to postpone a bond issuance until FY2020 and to avoid or defer approximately \$83,000 in bond interest expense.

<u>Reserve Funds</u>: Reserve funds of \$2,492,300 will be required to provide financing needed for the Utility's capital improvement program. These reserve funds from prior years' earnings directly reduce the Utility's cash reserves. FY2019 budgeted use of reserve funds is down <51.79% or <\$2,677,121> from the FY2018 budget.

## Analysis of Estimated Expenditures

The expenditure budget for the Stormwater Utility is proposed to decrease <\$425,941> or <3.04%> from the FY2018 budget. The proposed budget for fiscal year FY2019 by major expenditure category is as follows:

	Amended	Proposed		
Major Expenditure	Budget	Budget		
Category (Storm)	2017-2018	2018-2019	Difference	Percent
Personnel services	2,540,766	2,872,608	\$331,842	13.06%
Materials and supplies	179,350	186,450	7,100	3.96%
Charges for services	3,828,344	3,854,174	25,830	0.67%
Debt Service	1,010,724	1,014,000	3,276	0.32%
Capital improvements	6,132,667	5,133,500	(999,167)	-16.29%
Capital outlay	310,390	515,568	205,178	66.10%
TOTAL	\$14,002,241	\$13,576,300	(\$425,941)	-3.04%

## **Explanation of Expenditures**

<u>Personnel Services</u>: The proposed budget increases employee costs \$331,842 or 13.06%. The Stormwater Utility budget anticipates an increase of 1.68 FTEs for the Stormwater Utility's distribution of 14 new employees across the Department. The FY2019 budget includes 2.5% COLA and a 7% increase in costs of employee insurance premiums..

Materials & Supplies: Materials and Supplies increase \$7,100:

- Computer supplies increase \$3,500
- Motive parts and accessories increase \$1,000
- Non motive parts increase \$2,100
- Laundry and linen supplies increase \$500

<u>Charges & Services</u>: This category increases \$25,830. The increase is related to the following charges and services:

- Billing services increase \$149,137
- Utilities increase \$39,024
- Payment in lieu of tax increases \$16,157
- Data processing charges increase \$4,700
- Other charges and services increase \$2,649
- Travel and training decreases <\$250>

• Technical services decrease <\$185,587>

F

<u>Debt Service</u>: No change expected in debt service payments even with short term borrowing.

<u>Capital Outlay</u>: The proposed capital outlay budget increases \$205,178 to \$515,568. The capital outlay budget includes \$85,500 for vehicles, \$379,068 field maintenance equipment, \$46,000 for telemetry for the lift stations, and \$5,000 for other non-motive equipment.

<u>Capital Improvements</u>: The proposed capital improvement budget of \$5,133,500 is comparable to FY2018 budget and includes \$800,000 to begin improvements on 100 South and \$986,000 to begin improvement on 1300 East. The capital improvement budget for FY2019 includes major categories of projects as follows:

Proposed Storm CIP Budget for Fiscal Year 2018-2019		
Type of Project	<b>Budget Amount</b>	
Collection Lines	\$3,683,500	
Riparian Corridor Improvements	500,000	
Lift Stations	750,000	
Landscaping	200,000	
Total 2018-2019 Capital Improvement Program	\$5,133,500	

# STREET LIGHTING UTILITY ENTERPRISE FUND

## Major Budget Issues for FY2019

- No rate changes are proposed for FY2019 or the next few years. fhe base lighting rates were established the beginning of January 2013 for \$3.73 per month for an average residential customer, or Equivalent Residential Unit (ERU), and are expected to remain unchanged and sufficient for this fiscal year. Rates for enhanced tiers are \$5.67, Tier 2 \$15.94, Tier 3 \$43.82.
- Private lights program will be implemented. This \$20,000 transfer from the General Fund expresses the on-going desire of the City Council to provide a matching support to reduce the capital costs to neighborhoods installing private street lighting. Public Utilities administers this program.
- The Street Lighting Capital Program focuses on replacing aging light poles with energy efficient upgrades. Street Lighting capital improvements totaling \$2,605,000 are planned in the FY2019 including energy efficiency upgrades, wattage upgrades, system upgrades, and the replacement of poles, bulbs, fixtures, and wiring.

## Street Lighting Infrastructure Background

Of the 15,581 lights that the city maintains, about 8,250, or 53%, are now considered to be energy efficient. We are in the fifth year of a ten year goal to convert all of the lights to high energy efficiency lamps. Another 1,500 lights are expected to be converted to energy efficient lamps in FY2019. The Street Lighting Utility is saving energy that has approximately \$300,000 favorable effect on the FY2018 budget and a similar effect in future years. There have been and may still be energy saving rebates available as the conversion continues.

## Analysis of Estimated Revenue

An analysis of the estimated revenue anticipated in the budget for the Street Lighting Utility is as follows.

Revenue (Lights)	Amended Budget 2017-2018	Proposed Budget 2018-2019	Difference	Percent
Operating Sales	\$4,152,371	\$4,170,000	17,629	0.42%
Interest	30,000	52,000	22,000	73.33%
Other	2,000	2,000	0	0.00%
General Fund Cont.	20,000	20,000	0	0.00%

## **Explanation of Revenue**

<u>Operating Sales</u>: Operating sales are expected to remain unchanged from the prior year amended budget. (The difference is round rounding in the estimated budget for FY2019.)

<u>Interest Income</u>: Interest income increases. Historically approximately 1.5% of beginning cash is earned in interest. Interest is increasing because of unspent bond proceeds.

Other Fees: Other fees are budgeted to remain unchanged.

<u>General Fund Contributions</u>: No change. Public Utilities anticipates the general fund to contributing \$20,000 for private light options in FY2019.

Bonds: No additional bonding is anticipated.

<u>Reserve Funds</u>: The FY2019 budget anticipates using \$1,324,117 from the utility's reserve funds—mostly unspent bond proceeds from the 2017 bond issue.

## Analysis of Estimated Expenditures

The Department proposes an expenditure budget of \$5,568,117 for the Street Lighting Utility an increase of \$449,575 or 8.78% from the FY2018 amended budget. The proposed budget for fiscal year FY2019 by major expenditure category follows:

Major Expenditure Category (Lights)	Amended Budget 2017-2018	Proposed Budget 2018-2019	Difference	Percent
Personnel services	\$259,424	\$198,307	(61,117)	-23.56%
Materials and supplies	7,300	7,300	0	0.00%
Charges for services	2,381,770	2,654,510	272,740	11.45%
Debt Service	85,048	103,000	17,952	21.11%
Capital improvements	2,385,000	2,605,000	220,000	9.22%
Capital equipment	0	0	0	0.00%
TOTAL	\$ 5,118,542	\$ 5,568,117	449,575	8.78%

## **Explanation of expenditures**

<u>Personnel Services</u>: The proposed budget decreases employee costs <\$61,117> or <23.56%>. The Street Lighting Utility budget anticipates a decrease of<0.92> FTEs because some employees were redistributed based on how they work with the various utilities within the department. The FY2019 budget includes 2% COLA and a 7% increase in costs of employee insurance premiums.

Materials & Supplies: No change.

<u>Charges & Services</u>: The proposed budget for charges and services increases \$272,740 or 11.45% in FY2019. The changes are as follows:

- Technical services increase \$279,708
- Electricity costs are budgeted to decrease <\$7,768>
- Other charges and services increase \$800

<u>Debt Service</u>: In compliance with the outstanding bond, Series 2017 Bond, budgeted debt service payments increase \$17,952.

<u>Capital Equipment</u>: No expenditures for capital equipment are planned.

<u>Capital Improvements</u>: The proposed capital improvement budget is \$2,605,000 with an increase of \$220,000 or 9.22% from the FY2018 amended budget. The capital improvement budget for FY2019 is as follows for base lighting and all enhanced tiers:

Proposed Street Lighting CIP for Fiscal Year 2018-2019				
Type of Project	Budget Amount			
System upgrade for high efficiency and uniformity	\$2,215,000			
Rewiring of street lights	365,000			
Capital replacement	25,000			
Total 2018-2019 Capital Improvement Program	\$2,605,000			

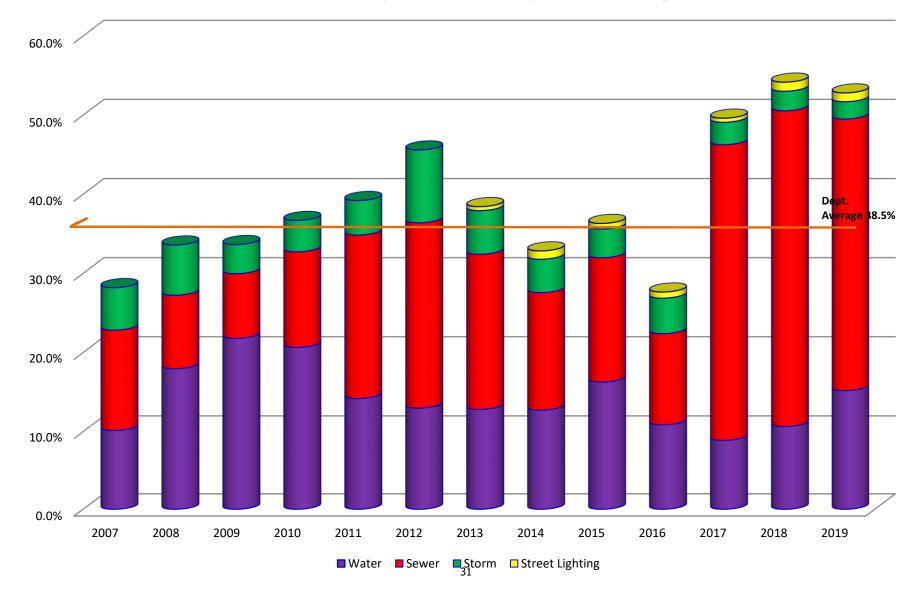

## FY 2019 Department Budget Summary

- Rate increases are as projected in the FY18 Budget Forecast for Water and Sewer, \$6.04 per month for the average residence with Water, Sewer and Stormwater rates changes.
  - Water 4% or \$2.41 per average residence in the City
  - Sewer 15% or \$3.18 per average residence
  - Stormwater 10% or \$0.45 per ERU
- No Bonds FY2019, but a possible \$5.3 million short term, low Interest note if needed.
- Major construction projects increase capital budget \$21.9 million to \$134.8 million.
  - Sewer capital budget of \$86.3 million
    - Includes \$18.4 million for the New WRF Plant, \$5 million for Lift Stations, and \$52.8 million in other collection system projects, \$4.9 million in reclamation projects, and \$5.9 million equipment
  - Water capital budget of \$40.2 million
    - Includes \$7.2 million for treatment plants, \$18.7 million for water mains, hydrants and connections, \$4.3 million for reservoirs, \$3.7 million for wells, and \$1.7 million for pump stations, culverts, flumes, bridges, and landscaping, and \$4.6 million for land and equipment
  - Stormwater capital budget of \$5.6 million
    - Includes \$3.7 for collections system, \$750k for lift stations, \$500,000 for the riparian corridor, \$200k for landscaping, and \$516k for equipment.
  - Streetlighing capital budget of \$2.6 million
    - Includes \$2.2 for system / high efficiency upgrades, \$365k for rewiring, and \$25k for replacement
- Operating budget increases \$4.5 million to \$91.2
  - Includes increase of \$1.2 million for 14 new FTEs, 2.5% Cola, 7% increase in health premiums, 3% increase in metropolitan water costs, and a new stormwater master plan
  - New FTEs anticipates succession planning, regulatory compliance, engineering support and water right adjudication
- Debt services spending budget increases \$800k to \$8.3 million
  - Scheduled capital spending facilitates delaying bonds previously planned for FY2019 until FY2020
  - Short-term financing shown to balance the FY2019-need will depend on spending 2017 sewer bonds.
