PHIL ROGERS JOINS ALBIREO ENERGY BOARD OF DIRECTORS

Edison, N.J. – August 6, 2015 – Albireo Energy, LLC (“Albireo Energy”), a national building automation and energy service company delivering solutions to large commercial and institutional buildings, today announced the addition of Phil Rogers to its board of directors. In his role, Rogers will work with Albireo Energy’s leadership team and CEO Phil Bomrad to evaluate opportunities and provide ongoing strategic growth direction for the organization, specifically as it relates to acquisition integration.

“I am proud to welcome such an experienced industry professional as Phil Rogers to Albireo Energy’s board and am confident he’ll be a great fit for our team,” said Bomrad. “He brings extensive expertise in M&A, strategic integration and operational efficiencies and will provide an invaluable perspective to our leadership team along with strengthening our corporate growth initiatives.”

Rogers currently serves as CEO of Jensen Hughes, one of the largest fire protection and life safety engineering and consulting firms worldwide, and brings 35 years of building management experience to Albireo Energy. At Jensen Hughes, he has successfully implemented and refined its strategic growth plan and provided valuable insight on integration as the company has successfully completed seven add-on acquisitions under his tenure as CEO and a member of the board of directors.

Roger’s expertise is focused on identifying and developing solutions related to energy efficiency, construction, mobile HVAC, roofing asset management, and national energy monitoring. Throughout his career, Rogers has been known as a pioneer in the energy management industry, including building automation systems (BAS), technology and smart buildings, working with many large corporations including IBM, DuPont, AT&T, Delta, Applied Materials, Nortel, and Bank of America. He holds a bachelor’s degree in finance from Miami University in Ohio.

“Albireo Energy continues to show tremendous growth, and I look forward to working alongside the leadership team to continue the momentum,” said Rogers. “My career has focused on a number of adjacent industries with various operational and management roles, and I’m excited to share my experience with the Albireo Energy team.”

About Albireo Energy

Albireo Energy provides building automation solutions and energy services to commercial and institutional buildings nationally. Their solutions and services help building owners and managers improve efficiency and reduce operational costs while improving comfort for tenants. Through its operating divisions, AE has a history of providing exceptional solutions to mission critical facilities such as data centers, labs, military installations, and hospitals. Their service portfolio includes energy efficiency, demand response, energy procurement services and smart building solutions including building automation installation and optimization, systems integration, metering and lighting. www.AlbireoEnergy.com
