Capability Statement

BUSINESS SUMMARY

AJ Nesti Materials specializes in the transportation and disposal of contaminated soil (hazardous/nonhazardous), debris or other materials requiring treatment, landfill disposal or beneficial reuse. AJ Nesti Materials offers to Federal and local governments and commercial clients personalized, safe and cost effective disposal/reuse options for contaminated soil, crushed concrete, sediments, ash, or other materials. Hazardous waste disposal and/or treatment locations are vetted and audited by AJ Nesti staff, and transport costs are controlled through use of truck and rail options. Also, through our relationships with numerous county, municipal and private landfills, brownfield sites and mine reclamation locations in need of daily cover or capping materials, AJ Nesti Materials can offer "green" beneficial reuse/recycle alternatives to direct disposal for any type of nonhazardous contaminated media.

CAPABILITIES

- WASTE TRANSPORT AND DISPOSAL (HAZARDOUS/NONHAZARDOUS)
- SOLID WASTE/OTHER WASTE DISPOSAL/RECYCLING/REUSE
- WASTE HANDLING/PACKAGING/PROFILING/MANIFESTING
- SUPPLY CLEAN BACKFILL (SAND/STONE/AGGREGATE/TOPSOIL)
- REMEDIAL SITE SERVICES

EXPERTISE

Key personnel have extensive waste transportation and disposal experience and remedial action oversight, including project management of complete environmental remediations, transport and disposal at over 30 DOD/EPA/FUSRAP projects over a 30 year period.
