Dear Tiffany,

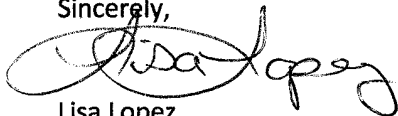

I wanted to thank you again for your excellent care of Maximus over the past few months. It was not a very easy thing for me to take him to daycare, and I am extremely picky over who watches my son. But the second we met with you, I knew he would be in very good hands.

Over the course of five months, I saw my son grow so much while attending your daycare. He was more on a schedule, he was interested in books, and able to recognize pictures. He even loves to help clean up. All of this is because of you. Anyone who takes their children to you for care is definitely very lucky and should have absolutely no concerns leaving their child with you.

The second we toured your daycare, we felt so comfortable. The setting, the colors, and the tidiness of your day care surpassed any daycare we toured. My gut was telling from the moment we met that your daycare would be a safe and nurturing environment for Maximus, and we were right.

Thank you so much for the excellent care you have taken of our son. As you know, he is very special boy who went through so much in his early life. We were very lucky to have you as a part of his life for a few months. We hope to be back soon!

Sincerely,
