This list does not serve as an endorsement of these contractors. However, these contractors have been working regularly within our neighborhood and the Crystal Beach / Miramar Beach areas in recent years. Some of them have been doing work on the Crystal Shores Common Areas and Pool Area.

It is recommended that you have bids and a well-defined Scope of Work before entering into an agreement with any contractor. Also, make sure that any contractor hired has Liability and Workman's Compensation Insurance, possesses the appropriate State Licenses and will obtain the required City of Destin Permits.
