PRICE: £950.00

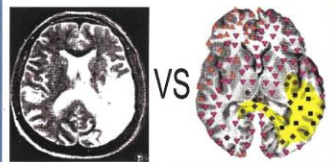

PLATINUM HEALTH SCREENING:

Everything included in the Diamond Screening, Pre-Conceptual Hypnotherapy CD, PLUS.....

Experience our new BIOPLASM 8D NLS Screening top to toe analysis... developed for the Russian and American Astronauts, it is the latest colour coding technology that has been demonstrated to be more accurate than an MRI Scan!

This system uses Sonar to energetically analyse your body from head to toe, and will even look at cells, chromosomes and DNA. Once it's done that, it will treat you with Bioresonance in the areas that require it most!

MRI Scan of Ischaemic Stroke Bioplasm Scan Comparison

PRICE: £750.00 for One Person
£1500.00 for a Couple

CUSTOMER TESTIMONIALS

"After nearly 5 years of trying for a baby, and 4 failed IVF procedures, I went to The McQueen Clinic and found I was incompatible with my husband's sperm... I never even imagined I could be! After a course of Bioresonance desensitisation, I fell pregnant within weeks without further IVF - now I have beautiful twin girls. I will never be able to thank you enough!" GN.

"My screening and treatment was just amazing. I had two heartbreaking early miscarriages, and my periods had not returned, but I was desperate for a baby. I had hormonal balance Bioresonance, and even my hair started to grow again after years of suffering from Alopecia... and now I'm pregnant and couldn't be healthier or happier. I have recommended The McQueen Clinic to many people with different health issues, and they have helped every single one!" EI

"The McQueen Clinic is the best I've ever been to and now I feel I am on the road to my dreams... Thank you so much" SH

"After four miscarriages, The McQueen Clinic discovered I had Lupus which was then confirmed by a consultant. I cannot tell you the relief to know there was a reason... I now have a son, due to the wonderful insight and support of The McQueen Clinic". SG

"At 32, and no periods for two years, I was told I was in early menopause... having met the man of my dreams, I was devastated... This year I fell pregnant naturally after having a Pre-Conceptual Screening and treatment at The McQueen Clinic! I'm so excited and eternally grateful". KB
