

PROJECT FREEDOM

Human Trafficking, domestic violence and abuse are all very real and serious problems in the U.S. In fact, these are real problems right where YOU live and work. We must all come together to put a stop to it! We must also reach out to the victims of such horrific and unthinkable acts to offer hope. They should never feel like they have to walk the journey to freedom and healing alone.

Give Hope & Emotional Freedom

Hope Reins is partnering with Street Hope, CEASE, Grow Free TN and other local organizations to provide sessions focused on the emotional healing and well-being of victims of human trafficking, violence and abuse. Through "Project Freedom", these participants will be given hope and emotional support as they work with a mare rescued from the Premarin industry and Nurse Mare Foals rescued from being destroyed at birth or destined for slaughter.

Each being freed from hands motivated by greed. Together, there is much healing and unconditional love to be found.

Will YOU partner with Hope Reins to provide hope and freedom from emotional bondage? Please sponsor "Project Freedom" now so 2018 can be a year of hope.
