Austin, Texas, April 27, 1876.

Dear Sir—I am in receipt of your letter of this date asking me for a true n of the contract between Gov Throcking to ind myself, referred to in the recent message of the Governor, relating to the indemnity bonds recovered by the covernor of the c

relating to the indemnity bonds recovered hat year.

There never was any such contract as that referred to, or understood to be referred to, in the Governor message. Supposing the Governor, to have inadvertently fallen into an error, I called upon him at his office this morning before receiving your letter, to confer with him upon the subject, and found that his attention had been previously called to the error in his message, when that his attention had been previously called to the error in his message, when he very frankly stated that he found that he had been inaccurate in the statement in his message referring to an alleged contract between Gov. Throckmorton and myself, that it had occurred through haste in the preparation of his message, etc., and that he would send a correction to the president of the Senate. If elit that under existing circumstances the message was a reflection

ate. I felt that under existing circumstances the message was a reflection apon me, because it was understood to alicge that. Gov. Throckmorton, had made a contract with me to undertake the recovery of the bonds in question for a contingent fee of 25 per cent, and that I had failed to do so, that his fearly statement satisfied me that the and that I had failed to do so, that his frank statement satisfied, me that the statement was inadvertent and without any such intention.

During the administration of Gov.

Throckmorton: I acted as an agent of Texas at Washington, and did make as such, in behalf of the State, a contract with Messrs. Merrick, Brent & Taylor to institute suits to recover what was then known as the White & Childs bonds, by the terms of which contract they were to be cutiled to a continued. visitors. As each day goes by without rain the heart of the farmer grows leavier.

More brick buildings will go up in Waco this year than in any previous year. At least two hundred firemen are expected here as visitors next month. They will be welcome. they were to be entitled to a contingent fee of twenty-five per cent, upon what ever amount they might recover of these bonds for the State. I had authority vested in me in reference to the bonds which Mr. Swisher carried to England, which were three hundred in number and each for a sthousand dollars, with coupons at tached from 1861 or 1862. But I had no contract with Governor Throckmorton nor with the State, but was acting as its agent; and as sucil I made no contract with my one in regard to these bonds. It was my purpose to active them for the State if possible, and wrote to the parties in England holding:

The Lockhart News Echo, alluding to the course of Gov. Coke with regarded the new constitution, says:

I think I have now answered the various points of your letter according to my recollection of the facts. Several years have passed since my mind has been called to the subject, and I have not examined any of the papers or corespondence relating to the subject, except a copy of the commission appoint-ing me the agent of the State, which terminated as before stated with the removal of Gov.
