

June A. Grant  
Principal  
Blink!LAB architecture  
Tel: 510.326.2176  
Jgrant@blink-lab.com

June A. Grant, RA, NOMA, is Founder and Design Principal at **blink!LAB architecture**; a boutique research-based architecture and design practice. As design lead she has 20 years of experience in architecture and design. Her approach rests on an avid belief in data research and new technologies as integral to design futures and design solutions.

Combined with her high energy and aptitude for innovation, June is heavily involved in front-end conceptualization for her projects. Her contributions have been consistently recognized for their rational yet provocative approach: always resolving complex issues and project goals.

Ms. Grant was Principal at Steinberg Architects and Associate Principal at AECOM. Groundbreaking in 2010, was the delivery of the NASA Ames Sustainability Base office and research building – a building designed to sell energy back to the grid and conserve 88 percent of potable water use, thereby addressing operating cost control as a mission critical design solution.

Recently, she has been nationally recognized for her work **Going from Asset Rich / Income Poor to Asset Rich / Income Secure**, on-going independent research rooted in the intersection of housing design within black spatial politics.

Ms. Grant is the current President of the San Francisco Chapter of the National Organization of Minority Architects (SFNOMA) and a 2019 YBCA100 awardee on the list of 100 people using their creative and collective power to make change!

#### Education

Masters in Architecture, Yale University, 1999  
Bachelors in International Finance & Economics (Magna Cum Laude), Baruch College, CUNY, 1993

#### Professional Registrations + Accreditations

RA, CA, C30888, 2019

#### Affiliations and Volunteer Activities

The San Francisco Chapter of the National Organization of Minority Architects – President (current)  
University of San Francisco – Asst. Professor  
Association of Computer Aided Design in Architecture (ACADIA)  
The East Oakland Collective

#### Presentations

American Society of Landscape Architects Conference, 2019  
AIA Knowledge Network: ADUs – Social Change by Design, 2019  
YBCA100 – 2019  
*New York Times*: Endangered Spaces – San Francisco, 2019  
The Tiny Living Festival, 2019  
AARP Future of Housing, 2019  
AIASF Next Conference, 2018  
NOMA National Conference, 2017  
Water Bootcamp, Seattle, 2017  
Launch – Innovative Opportunities in Waste, 2012  
Engineers for a Sustainable World, Stanford University, 2011  
Autodesk Sustainability Summit – NASA Ames Sustainability Base, 2011  
Johnson & Johnson 2010 Energy Forum – Keynote Speaker, 2011  
Society of American Military Engineers, 2011  
NASA's Next Generation Facilities: Coupling Green Technology with Mission Critical Success, 2010  
Stanford Univ. – NASA Ames Sustainable Base, Achieving Higher Goals, 2011  
BrightTalks Green Summit Advanced Technologies, 2011  
White House – Green Gov Climate Symposium, 2010

#### Publications

San Francisco Magazine – 2019  
AARP ADU Design and Development booklet - 2019  
Sierra Magazine – 2017  
FastCompany – NASA's First Space Station on Earth  
Autodesk *Communicate across barriers*.  
California Construction News – *NASA Ames' Sustainability Base Project Aims to Exceed Green Standards*, March 2010

#### Awards

YBCA100, 2019  
General Services Administration (GSA) Green Innovation, 2010  
Silicon Valley Green Building of the Year, Public 2010.

#### PROFESSIONAL EXPERIENCE

*\* denotes prior experience*

Ms. Grant has completed a wide range of work, from offices, retail, education and product design to sustainable planning and development. Her projects range in size from as small as 1,000 SF to over 500,000 SF with budgets varying up to \$250M.

#### Core Architecture & Design Competencies:

- Civic and Cultural Architecture & Design
- High-Performance Buildings
- Workplace and Interior Design
- Residential Mixed-Use Architecture
- Urban Community Growth Strategy
- Sustainable Heavy Industry Urban Integration
- Urban & Domestic Objects

#### Sustainable Buildings + Campus Planning

##### East Oakland Boxing Association, Oakland, CA

*Role:* Principal Architect

*Project Size:* 5,000SF Architecture, 22,000SF Site

*Project Cost:* Fund-raising campaign

EOBA has been providing youth development program with wrap-around services. After 40 years of community, it was time to create a Sustainable Master Plan and Strategic Fund-raising Campaign. The Master Plan identified existing rain-water sustainable practices, opportunities and challenges of the current site and buildings which prevented growth; as well as integration of feedback from program youth into design and spacial needs. The Master Plan also addressed site access, continued accommodation of existing programs as well as new space types such as a maker-space and new exterior courtyard; as well as provided a visual concept of the future developed campus.

**Sustainability Base, Building N232, NASA Ames Research Center, Moffet Field, CA\***

*Role:* Design Manager

*Project Size:* 50,000SF Architecture, 50,000SF Landscape

*Project Cost:* \$26M (excluding FFE)

*Awards:* 2010 GSA Green Innovation and other awards

N232 is a net-positive, high-performance energy efficient building. It is the first of 5 buildings under the Renovation-by-Replacement program for the modernization of NASA Ames Research Center. Thorough building skin investigation, delivered a revolutionary building to the Bay Area and the federal administration. N232 is certified *LEED-NC Platinum*.

**Integrated Office Building, Building N268, NASA Ames Research Center, CA \***

*Role:* Design Architect

*Project Size:* 72,000SF

*Project Cost:* \$40 Million

Design Architect for N268, the second of five buildings under the Renovation-by-Replacement program. It continues the Master Plan implementation with a building designed for greater sustainability and energy generation than its predecessor N232.

**National Guard Bureau Readiness Center, Arlington, VA\***

*Role:* Staff Architect – lead for San Francisco team

*Project Size:* 250,000SF

*Project Cost:* \$89M (3 Phases) + \$24M (FFE)

A five-story triangular tower and three levels below grade meet the design challenges of site restrictions, while creating an architecturally compelling signature facility that amplifies the site's landscape. *LEED-NC Gold certified*.

**Corporate Architecture and Interior Design**

**GE Corporation – Software COE, San Ramon, CA\***

*Role:* Design Architect and Project Manager

*Project Size:* 225,000SF Interior Architecture

*Project Cost:* \$15M+

*Design:* On-going 5-Phase Project

Launching the arrival of GE's introduction to Silicon Valley and the Bay-Area culture required innovative technological solutions for space use. Today, the design of GE COE San Ramon has become the new company standard.

**Dolan Law Firm, San Francisco, CA\***

*Role:* Architect

Renovation and upgrade of an existing 6-story unreinforced brick building. While not a registered historic building, the building was almost 100 years old and considered a cultural asset.

**Surfshop / C2LLC, Pacifica, CA\***

*Role:* Architect

A front-runner to the yet to emerge "Google" culture. Surfshop, a branding and management consulting firm whose operating structure required large open workspaces, flexible spaces with the ability to close when necessary. Additional non-typical requirements included live-in/studio accommodation for visiting clients and/or late-night staff needs.

**Culture & Education**

**Oakland Public Conservatory of Music, Oakland, CA**

*Role:* Principal Architect

*Project Size:* 5,000SF Architecture,

*Project Cost:* \$30,000

The design and fabrication of an acoustical insertion necessary for the transformation of a commercial storefront to an intimate performance space.

**Alameda County Law Library Incubator, Oakland, CA**

*Role:* Principal Architect

*Project Size:* 5,000SF Architecture,

*Project Cost:* \$40,000

A design-build public project recognizing the shift in the role of the library in contemporary society. This incubator space transforms both formal and informal information and research functions, meeting, and social spaces of the library. The Law Library's Incubator center demarks a new beginning for the urban role of the library through the renovation of a large interior space and allows the introduction of a new library role to the broader Oakland community. The project included spaces for private meetings with lawyers, classrooms, administration and flexibility to expand to accommodate large groups. Central to the project was sustainable re-purposing of existing cherry wood panels to maintain the aesthetic continuity in the library.

**Alameda County Library Services – Master Space Use Planning, Oakland, CA**

*Role:* Space Use Analysis (SLEB to Group4 Arch.)  
*Project Size:* 8 Buildings, 183,000 square feet

ACL's real estate and lease holdings were evaluated for best use in the face of a changing customer demographics, evolving library technology and client expectations of services provided to the community. The study revealed existing practices when compared to emerging library and socialization trends.

**California Space Center, Santa Maria, CA.\***

*Role:* Master Architect  
*Project Size:* 470,000SF Facility  
*Project Cost:* \$220M  
*Planning:* Project Dis-banded

The new CSC was expected be a world-class facility focused solely on space exploration. Working with the California Space Authority and the California Space Education Workforce Institute to celebrate California's historic contribution to the fields of science and technology.

**Santa Maria Children Discovery Museum, Santa Maria, CA.\***

*Role:* Concept + Interactive Education Designer

A local private philanthropist provided the means for this farming community to build a museum for children. Retrofitted, the existing bottling facility is now a place for experiential learning for K-8.

**CA Science Center Amgen Center for Science Learning, Los Angeles, CA.\***

*Role:* Concept + Interactive Education Designer

Concept development, exhibition design and fabrication for a new outdoor learning garden, which functions as a laboratory for students in the Amgen Center Charter School. Using the exhibits, children engage in dramatic, large-scale scientific experiments.

**Leisure + Entertainment**

**Westfield Shopping Center, San Francisco, California\***

*Role:* Interior Design Architect – Public Spaces

Once known as the Macy's Emporium, the half- million square foot building, while not architecturally significant was the source of cultural memory for many San Franciscans. Today, this new 'Lifestyle' shopping center has set the standard for future urban shopping centers.

**Infrastructure, Facility Planning + Development**

*The questions we ask. Services and Utility facilities have an untapped potential for greater aesthetic integration into the urban fabric. An architect can unearth questions that translate a wastewater treatment plant from utilitarian grey to inclusive wonderment.*

**Alameda County Social Services Administration – Master Space Plan, Oakland, CA**

*Role:* Space Use Analysis (SLEB to Gensler.)  
*Project Size:* 9 Buildings, 515,000 square feet

SSA's real estate and lease holdings were evaluated for best use in the face of a significant upward trend in services provided to the community and expected hiring. Through integration of contemporary open workspace and collaborative workstyles, we were able to demonstrate opportunities for space savings and financial gains.

**SF Public Utilities Commission, Storm water and Sewer Improvement Plan – Southeast \***

*Role:* Program Mgmt – Master Architect/Visionary

The SSIP's success will rest on the successful delivery of this facility and its positive influence in changing several decades of mistrust of the City and the community's demands for its improvement.

**Denver Metro Wastewater Reclamation District\***

*Role:* Master Planner / Architect  
*Project Size:* 200 acres, Support Facilities Master Plan

Provided a comprehensive land-use, infrastructure and green-scape plan to meet reduced footprint goals and greater sustainable urban integration.

**US Coast Guard – Telecommunications & Information Systems Command (TISCOM), Alexandria, VA\***

*Role:* Master Planner and Design Architect  
*Project Size:* 100,000SF, 200 acres

Planning Proposal for new 100,000-SF multi-story building to meet 10-year growth requirements consolidating operations and administrative departments located in 11 structures scattered over the 200 acre campus of which 150 acres are wetland reserves.

## **PROFESSIONAL PRACTICE SUMMARY**

### BLINKILAB ARCHITECTURE (2014 to present)

#### *Founding Principal*

- International Boulevard Retail Corridor Improvement
- East Oakland Cultural Zone
- Friends of Hoover Durant Public Library (on-going Pro-Bono)
- Oakland Public Conservatory of Music, Oakland, CA
- Global Citizen Youth, Oakland, CA
- Accessory Dwelling Unit Community Development, Oakland, CA
- East Oakland Boxing Association, Oakland, CA
- Alameda Country Law Library – Legal Incubator, Oakland, CA
- Alameda Country Library Association, Oakland, CA
- Alameda Country Social Services, Oakland, CA

### STEINBERG (2013 – 2014)

#### *Principal*

- Parkside, San Jose, CA
- JCC Weinger, Chicago, CA
- San Pedro Square, San Jose, CA

### AECOM (2008 – 2013)

#### *Associate Principal*

- California Space Center, Santa Maria, CA
- GE Corporation – Software COE, San Ramon, CA
- Denver Metro Wastewater Reclamation District
- NASA Ames Research Center - Sustainability Base, Building N232, Moffet Field, CA
- NASA Ames Research Center - Integrated Office Building, Building N268, Moffet Field, CA
- National Guard Bureau Readiness Center, Arlington, VA
- SF Public Utilities Commission, Storm water and Sewer Improvement Plan – Southeast

#### PRIOR TO 2008

- Backer House, San Francisco, CA
- AKQA, San Francisco, CA
- Surfshop / C2LLC, Pacifica, CA
- Dolan Law Firm, San Francisco, CA
- Echeguren Slate, San Francisco, CA
- CA Science Center Amgen Center for Science Learning, Los Angeles, CA.
- Santa Maria Children Discovery Museum, Santa Maria, CA
- CHEVRONTEXACO Headquarters, San Ramon, CA
- Westfield Shopping Center, San Francisco, California

## **INVESTMENT RESEARCH HISTORY**

### DSW SCUDDER (now Deutsche Bank)

#### *Senior Investment Research Associate*

- Aerospace & Defense Industries
- Automobiles Industry
