Mercy Emergency Medicine Co-workers Rush to Aid in the Philippines

OKLAHOMA (Jan. 2, 2014) -- William Reed, RN, and Dr. Dan McKinley, 29, have both been part of an incredible experience.

At a moment’s notice, the two of them left the UCO campus in the Technology Drive, headed straight for Typhoon Haiyan. They did this on five days’ notice to ensure the safety of their families — for months. According to the Mayo Clinic, more than a million people died in Typhoon Haiyan. It is estimated that 50 percent of Seniors age 65 and older and 10 times more susceptible to C. difficile.

The trip to the Philippines is a difficult one. It is not simple to get there. It was not much of a trip, but it was an incredible experience.
