

## COVID-19 Information for Students

Due to the 2019-2020 outbreak of the novel Coronavirus (COVID-19), our business is taking extra precautions with the care of every student using enhanced sanitation/disinfecting and personal protection procedures in compliance with CDC Guidance and Commonwealth of Massachusetts Guidelines.

Students must bring a face mask and a face shield is also required. Face shields can be purchased at local retailers and Ocean State Job Lot has them in stock. Hand sanitizer will be provided by the school.

Due to Covid-19 the following changes will be made in regard to hands-on training:

- There will be no burner head adjustment and chassis practices.
- Students will be issued a meter and meter box troubleshooting will be done.
- Hands-on wiring practice will be done using our trainers, but there will be one unit per student, no pairing up.
- No hands-on regarding laboratory units and no combustion testing will be performed.

By signing below, I understand and agree to each statement above and release George Lanthier, Firedragon Enterprises, and the Beckett Corporation from any and all liability for unintentional exposure or harm due to COVID-19.
