ISLAND HARDWARE TAKES YET ANOTHER LEAP INTO THE FUTURE!

Well, maybe not a leap into the future, but finally a small step out of the past. You see, our rather extensive frozen breakfast and lunch offerings have been displayed in a stand up, non-defrosted freezer with a metal door. You can't see through metal. I take credit for the discovery of this visual concept (at the store at least).

We finally, some fifty or so years later, have purchased a brand new display case freezer with a SEE THROUGH glass door for our mostly Costco purchased burritos and sandwiches. That's right! I said NEW display case not just NEW to us like most of our equipment and rolling stock.

Heck, you will no longer need to chip the frost off of your breakfast prior to its entrance into our microwave. Three to five dollars can still get you a rather mediocre, but filling breakfast of say a burrito, a "Jimmy Dean" breakfast sandwich, free coffee, and a couple of chocolate covered little free "pop corn" substitutes. What is a "pop corn" substitute you ask? Well, it seems that Covid needs to go away before our famous fresh hot pop corn can return. In its place, we offer a couple of individually wrapped, health department sanctioned, bite sized snacks of your favorite candy bars.

If your budget is a bit flusher and you have the time, why not treat yourself to a piping hot breakfast at any one of our fine, family run Orcas eateries after you have picked up your supplies somewhere in Crow Valley that is.

CHECK OUT OUR MENU ON THE BACK!

HELP US NAME OUR "CAFE"

That's right we are in a quandary as to naming our revamped hot food center

Here are some of the candidates:

- ISLAND HARDWARE CAFE (To the point but boring)
- A FORD A BULL CAFE (A bit corny)
- NUTS & BOLTS BISTRO (Has a nice ring to it don't you think?)
- CAFE-YOU COOK (Maybe even more corny)

If you do not like these please submit your idea for consideration
A fabulous prize awaits you if you submit the winning name!

Too bad *PASSING GAS* is already taken
