

## Home Assignment(Class VIII) Science

### Week-1

**1.Follow the youtube links to learn the physical and chemical properties of metals and nonmetals**

Link :- <https://youtu.be/M95rTLomCIU>

Link2 :- <https://youtu.be/fjHplFxGae8>

**2)Make a project report on the topic:` Metals in our home and surroundings'. Include the names of at least five different metals along with various products made from those metals. Also mention the relevant property that made the product useful. For example, aluminium is used as a foil because of its relevant property of malleability.**

3) Learn the reactivity series of metals from this Link :-
