**Ballots must be returned via U.S.
Mail no later than 5 p.m. on Oct. 14th.**

Our Local A Members' Choice Team:

- Are leaders during the good times and tough times, willing to make tough decisions to benefit the members.
- Are shop floor members/union leaders who work with you to improve communication, promote solidarity, enforce the contract provisions to protect members' rights and provide a safer and healthier workplace for all members.
- Worked hard to turn anger over the 2014 contract extension into positive change to make our union stronger by crafting, proposing and lobbying for nationwide support to pass the Membership Bill of Rights at the 2016 Grand Lodge Convention. This historic change ensures local leaders and members control our contract by defining the circumstances we negotiate over, when we engage the company and determining date and time of any vote. With this change, we will never face a destructive contract being negotiated behind our backs and a vote being forced upon us!
- Told members to 'VOTE NO' on the destructive contract offers in Nov. 2013/Jan. 2014!
- Are willing to stand up to anyone who stands against our members...management, politicians or any other group or organization.
- Regularly volunteer to assist with union activities and community service projects.
- Promote democracy by encouraging members to have input and get involved with our Union.
- Found new ways to challenge Boeing using all legal avenues available, including demanding to bargain effects of changes in policy, filing Unfair Labor Practice charges, increased arbitration and grievances, and more!
- Understand change is more than just new faces – it requires innovative ideas, the ability to get things done, and working with others to find solutions.
