

At JK Architecture Engineering, we believe that lifestyle and great design go hand-in-hand. Our offices are in Auburn, CA (Endurance Capital of the World), Tahoe City, CA (Lake Tahoe...need we say more) and Reno, NV (the biggest little city in the world!). If you decide to practice the arts of Architecture and Engineering with JKAE, you will be joining an award-winning team and simultaneously enjoying the beautiful Sierra Nevada. We are community-oriented and employee-focused. If you are looking to join a great firm with staff that is energetic, motivated, and enjoys an outdoor lifestyle, all while offering excellent benefits, JKAE is the place for you. If you meet the position requirements listed below, we would be excited to review your qualifications.

DESCRIPTION

Immediate full-time position is open in our Auburn office for project collaboration in our LIVE | LEARN | WORK | PLAY market sectors. Candidates must be committed to design excellence, interested in the crafts of architecture and structural engineering, and have a working familiarity with a wide variety of project integration software including BlueBeam, PlanGrid, Revit, NavisWorks, and AutoCAD. This position assumes growth opportunities and mentorship towards licensure if desired.

RESPONSIBILITIES

- ❖ Serve as practice-group Technology Integration Lead. Manage and oversee on-going technology as tools for project integration and advancement.
- ❖ Oversee staff training and mentoring of technology tools and processes.
- ❖ Assist in the design documentation process working directly with Project Architects and other designers.
- ❖ Must have strong interpersonal skills and experience in coordinating with architectural and structural engineering team, clients, consultants, and contractors.

QUALIFICATIONS

- ❖ Bachelor degree recommended, with 5 or more years of relevant architectural and/or structural engineering drafting/design experience.
- ❖ Proficiency in Revit, AutoCad BlueBeam, NavisWorks, and Sketchup with a minimum 5 year hands-on experience.
- ❖ Experience with Sefaira or other High Performance softwares a plus.
- ❖ Utilization of VR technology and its application to architectural design visualization.
- ❖ Interest in researching and testing new software and technology.
- ❖ Desire to serve as mentor to guide and advance staff.
- ❖ Working knowledge of building codes and regulations, including ADA and Title 24 a plus.
- ❖ Strong technical aptitude, attention to detail, and organizational skills.
- ❖ Effective written, graphic, and oral communication skills.
- ❖ Ability to work independently as well as under the direction of a project manager.

INSTRUCTIONS FOR SUBMITTAL

Please submit in PDF format only the following:

- ❖ One-page cover letter briefly describing your relevant experience and interests
- ❖ Resume
- ❖ Samples of relevant work

Please email the above items to anda@jkaedesign.com.
