

THE BLOOD MOON TETRADS

19-48 TETRAD PATTERN SINCE ISRAEL'S INDEPENDENCE IN 1948

The Tetrad of 2014-15 has been eagerly anticipated by Bible scholars and non-theologians alike. There is a lot of talk, study and interpretation as to what the real significance with the Tetrad will turn out to be. From a purely Biblical perspective, one can look at the most recent Tetrads that have occurred to possibly ascertain a logical assumption of what is to be a plausible outcome based on the prior Tetrads 1949-50 and 1967-68. Why there is an intense interest in the Tetrad of 2014-15 is that given the prior patterns and history—as it pertains prophetically to the Nation of Israel, it has been associated with strife, war and bloodshed. Most notably these times of strife have specifically been attributed to when Israel was birthed in 'One Day' as a nation in 1948 and when Israel recaptured the Old City of Jerusalem in 1967, where the 1st the 2nd Temples once stood. Perhaps the 3rd Tetrad in this sequence is heralding an event that will deal with the 3rd Temple to be rebuilt.

A Tetrad is when 4 consecutive Total Lunar Eclipses occur; without any in-between Partial Lunar Eclipses. A Lunar Eclipse happens only at the time of a full moon. What is significance about some of the Tetrads is that only at certain key historical dates related to the Jewish nation have certain corresponding Tetrads occurred precisely on Jewish Feast Days, or as some would rather say on the YHWH's Feast Days called *Moedim*. Of all the major 7 Feasts of the LORD, only 2 Holy Feasts of YHWH fall on or correspond to a Full Moon, that of Passover and Sukkot or Tabernacles. The Feast Days are constant and repeat with a Passover and Sukkot or Tabernacles sequence pattern.

If one studies the time from when Israel became a nation again in 1948, there are a total of 3 prominent Tetrads that occur that have this Passover and Sukkot pattern. Those specific Tetrads occurred in 1949-50, 1967-68 and now in 2014 and 2015, again on Passover and Sukkot. Furthermore, what is extraordinary is that out of all the numerous Tetrads that have occurred since the 1st century, only 8 Tetrads have had this Passover-Sukkot pattern, depending on the date referenced. It can be shown that in actuality, there are 9 Tetrads since Christ. Perhaps this particular Tetrad of 2014-2015 is heralding the prelude to the Tribulation and the impending 2nd Return of Christ after a 7 years Sabbatical period. What is further peculiar, is that in the midst of this 2014-15 Tetrad, there will be a total solar eclipse on March 20, 2015. This specific date happens to be the Jewish New Year. Then there will be partial solar eclipse on September 13, 2015—which is on the Feast of Trumpets, the civil New Year. This eclipse will lead up to the Super Blood Moon and the end of the Shmitah economic reset cycle of 7 Years on Sukkot and the end of the Tetrad of 2014-15.

In 1949-50 (War of Independence)

The 4 Total Lunar Eclipses occurred on the *Passover* and *Sukkot* (Tabernacle) feasts of 1949 and 1950. The start of the Tetrad occurred right after Israel declared sovereignty and its declare independence. It was on November 5, 1949 that Israel official was recognized as a UN Member.

In 1967-68 (Liberation of Jerusalem)

The 4 Total Lunar Eclipses occurred on the *Passover* and *Sukkot* (Tabernacle) feasts of 1967 and 1968. The start of the Tetrad occurred right before the recapture of the Old City and Temple Mount of Jerusalem on June 7, 1967.

In 2014-15 (3rd Temple?)

The Tetrad will most likely deal with a most dire monumental and prophetic event directly related to the Jewish Nation. It is speculated at as Jewish tradition states, a *Blood Red Moon* eclipse will signal a bad omen for Israel as opposed to a *Total Solar Eclipse* that signals a bad omen for the world in general.

THE SCHEDULE FOR THE 2014-2015 TETRAD

1) Passover,

Apr 15, 2014 a Total Lunar Eclipse – Blood Moon
(Partial Solar Eclipse on April 29, 2014)

2) Sukkot (Tabernacles)

Oct 8, 2014 a Total lunar Eclipse – Blood Moon
(Partial Solar Eclipse on October 23, 2014)

(Jewish Civil New Years Day Total Solar Eclipse on March 20, 2015)

3) Passover

Apr 4, 2015 a Total Lunar Eclipse – Blood Moon
(Feast of Trumpets Partial Solar Eclipse on September 13, 2015)

4) Sukkot (Tabernacles)

Sep 28, 2015 a Total Lunar Eclipse – Blood Moon

TETRAD PATTERN

1. Passover
2. Sukkot
3. Passover
4. Sukkot

TETRAD 1949-1950

From AD 70 (2nd Temple destroyed) + 1948 years = 2018

19 YEARS
1949 TO 1968

TETRAD 1967-1968

From AD 66 (Halley's Comet) + 1948 years = 2014 (start of TETRAD)

66th Anniversary from year 1948 = 2014 (start of TETRAD)

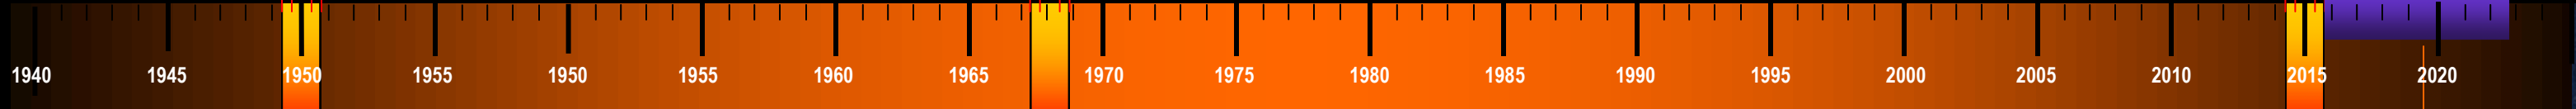

66 years from start of 3 Tetrads 1949 - 2015 = (start to end of TETRAD)

48* YEARS (47y 11m 11d)
1967 TO 2015

TETRAD 2014-2015

7 years?

2015? 2018? 2022?

ISRAEL

'19 & '48
Israel Reborn

May 14, 1948 - Nation Born in a 'Day'
UN Member Nov 5, 1949

From 1948, there are 3 Tetrads
(4 consecutive Total Lunar Eclipse
Moon) in approximate phi ratio leading
up to 2015. Each Tetrad has marked a
significant Biblical fulfillment in regards to
Israel, Jerusalem and perhaps now the
3rd Temple.

('19 + '48 = '67) 1967
Jerusalem Reunited

JERUSALEM

June 7, 1967
Old City Captured - Temple Mount

1948 to 2018 = 70 Years, as Captivity in Babylon - 1 Generation

If a Generation is 52 Years : 1967 + 52 = 2018/19

If a Generation is 70 Years : 1948 + 70 = 2018

TEMPLE

2014/15?
3rd Temple built?

One very popular
theory can be
calculated if the Feast
of Trumpets on Sep
13, 2015 becomes the
1st day of the
Tribulation. If one
adds Daniel's 2520 or
7 Lunar years, one
ends up at

August 7, 2022

This date is none
other than the 9th of Av
when the 1st and 2nd
Temples were both
destroyed.

THE HAROLD TO THE TETRAD

A very unique solar eclipse appears to be the precursor to the Tetrad. It is a class all unto itself. It is the rarest of the rare eclipses known to mankind. This eclipse happens on November 3, 2013. It is referred to as a *Hybrid Eclipse* because it is both has Total and Annular properties. What is incredible to conceive is that this rare *Hybrid Eclipse* has occurred only a few times, like the Tetrads since Christ but it is the only one that directly leads up to a Tetrad as it will starting in April 15, 2014 which is only 163 days out.

PROPHETIC TIME PIECES

To understand what might happen during the Tetrad of 2014 - 2015 one can examine and compare the pattern of the immediate and prior Tetrads of the past. The Bible does state that Israel as a nation is the key to understanding End-Times events. Many speculate that this 'Tetrad Pattern' will culminate in several converging prophetic anticipated fulfillments. One, it will signal the beginning of the construction of the 3rd Temple. Two, others believe that in conjunction or close proximity will be the start of Daniel's last prophetic Week of 7 years. Three, yet others will deduce that prior to these first 2 conditions, the *Rapture of the Church* must occur. Four, thereafter, many students of End Time Prophecy propose that the Time of Jacob's Troubles will follow at the midpoint of the Tribulation. If any indication of the 1949 and 1967 Tetrads show, is that the Jewish Nation will go through a fiery trail for its very own survival.

TheAstronomer.org
TimeandDate.com
Wikipedia.com

What is striking is that the Tetrad of 2014-2015 will be the last one that has the Passover-Sukkot pattern for hundreds of years, at least. According to NASA's calculations, the following Tetrads that occur on 2032-2033, 2043-2044, 2050-2051, 2061-2062, 2072-2073, and 2090-2091 will not see the pattern that has 1949, 1967 and 2014 Tetrads fall on Passover & Sukkot. For the next 500 years, which make up the 22nd to the 25th centuries in the future, there will no Tetrads at all fall on Jewish Feast Days of Passover & Sukkot.

FREQUENCY

Where and how are these Tetrad patterns derived from? One primary source has been from NASA. The Tetrad patterns have been based on mathematical calculations derived from the *Saros eclipse cycle*. This cycle lasts for a period of about 18 years. Because of the 'clockwork' of the universe's precession, solar and lunar eclipses can be observed to the precise hour and minute. These calculations can go both back in time and forward into the future based on the geometry involved.

7-YEAR TRIBULATION PERIOD

For the sake of this study, the position will be taken that the Tribulation is a 7-Year long 'week of years'. It would be divided into the 1st 3.5 years or 42 months called the Tribulation in general then followed by a mid-point at which time the persecution of the Jewish nation will intensify, often referred to as the *Time of Jacob's Trouble*.

Possible 7-Year Ranges?

2015-2016
'YEAR OF LIGHT'
5776

The Tribulation or the Time of Jacob's Troubles could start the moment the first 'Sacrifices' commence; that of the *Red Heifer*. The Temple Mount first has to be 'purified'. If at 2014, it takes ~18 months to build the Temple, 2015 could be the year the Sacrifices could commence.

The *Total Solar Eclipse* of March 20, 2015 which is the start of the Jewish religious calendar, perhaps might signal the start of the Tribulation period as a precursor highlighting the next set of *Total Lunar Eclipse* pairs.
