A PERFECT GIN & TONIC ?

A few recommendations from our extensive selection.

Malfy con Limone

£9

With Fever Tree Lemon Tonic & lemon zest

Malfy Gin is made in Turin using lemons grown in Sicily and on the Amalfi coast, as well as botanicals including juniper, coriander, angelica and cassia bark. The result is a refreshing gin that is perfectly suited to tonic, as well as making a fruity Negroni or Martini.

ORO Gin

£8.5

With Fever Tree Tonic and fresh lime juice (or not)

A classical style Scottish Dry Gin, starting with robust notes of juniper smoothly moving to a zingy citrus mid body, finishing nicely dry, with a note of spiced vanilla. We recommend trying it neat, followed by a dash of plain tonic and then to taste. It was designed to change with the volume of tonic added. We hope you enjoy it.

Pollination Gin

£10

With fever tree tonic, juniper berries, mint & lemon

Dyfi is recognised by UNESCO as a World Biosphere Reserve, and provides an enviable selection of the finest classic gin botanicals.

Pollination gin is produced by the highest standard London Dry method, in extremely limited small batches, using pure grain spirit and locally drawn spring water. Foraged botanicals come from within the Biosphere: from the Snowdonia foothills, through the Dyfi Forest, and down to the estuary marshlands. On a canvas of carefully selected classic gin botanicals, wild flowers, aromatic leaves, fruits and conifer tips are added. Pollination Gin can't be produced all year round, and in order to ensure sustainability, production is necessarily very limited. Each bottle is hand signed and lot-numbered.

Please see our spirits menu for a full list of available gins.
