

Exquisitely Finished Architectural Raised Flooring

ARTEGO®TZ

ARTEGO®SF

ARTEGO®MP

ARTEGO®LOGOS

ARTEGO®TZ is a high performance epoxy terrazzo that brings to the raised flooring market all the beauty and sustainability that was previously only available on grade

Sustainable
construction is the
core of green
building -
ARTEGO®TZ floors
will last the lifetime
of the structure
with extremely
low maintenance

Neutral combinations
of marble and
epoxy with a minimal
aluminum reveal
provide a virtually
“seamless” raised floor

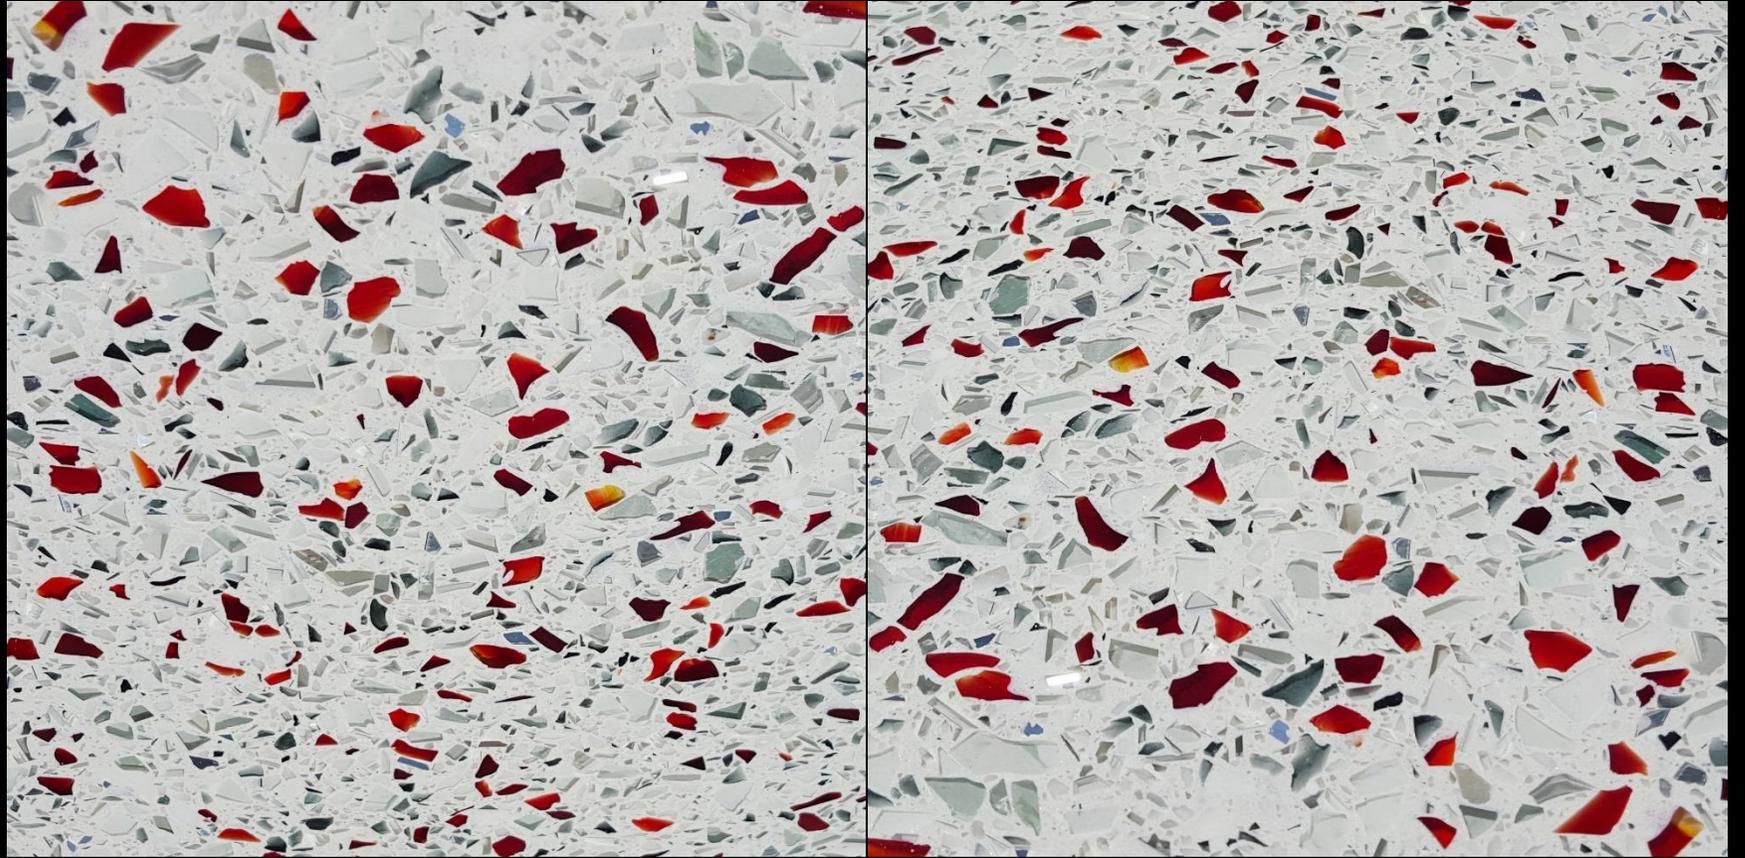

Sample selection of dark to light tones

Glass is all about
color - from intense
red to deep blues to
soft greens and
crystal clear

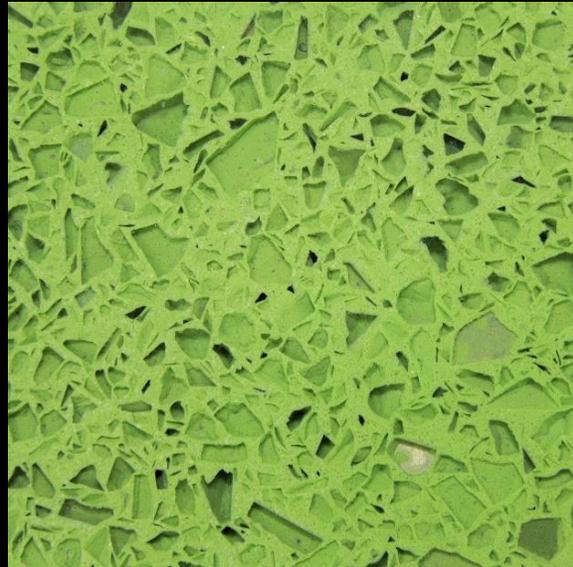

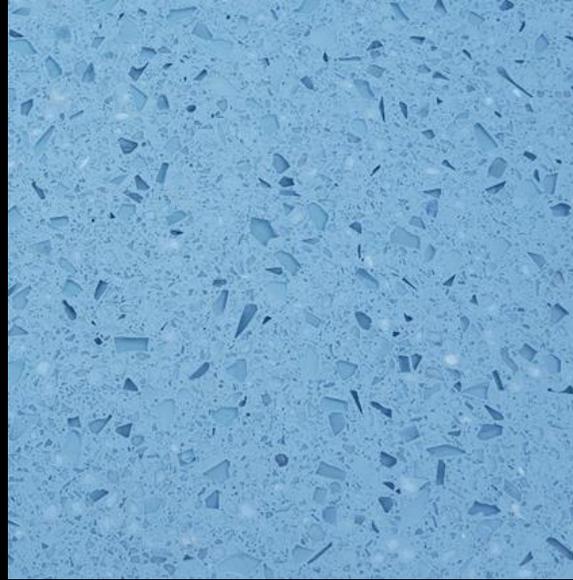

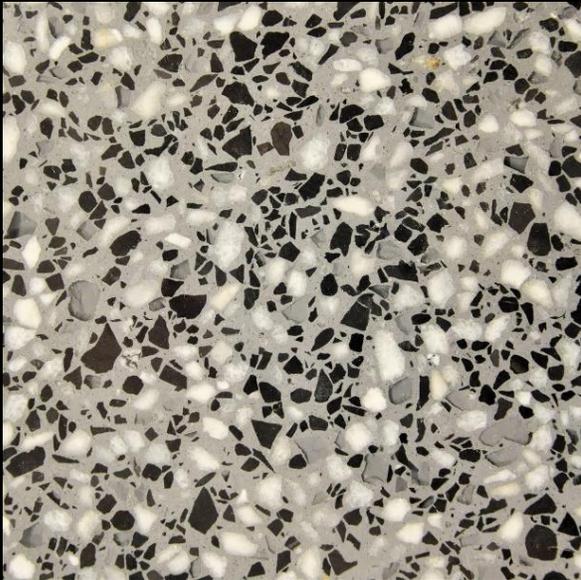

ARTEGO®TZ can
incorporate vibrantly
colored glass to
enrich the interior
of any space

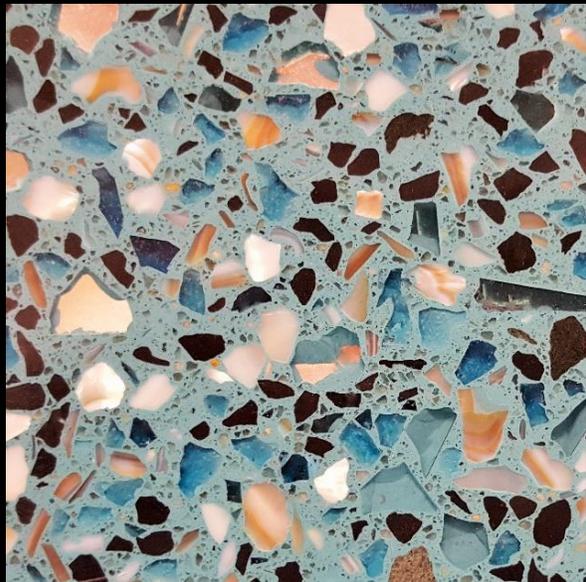

All Access craftsmen have decades of experience creating truly innovative designs using vibrant colors/aggregates.

Sand Finish

+

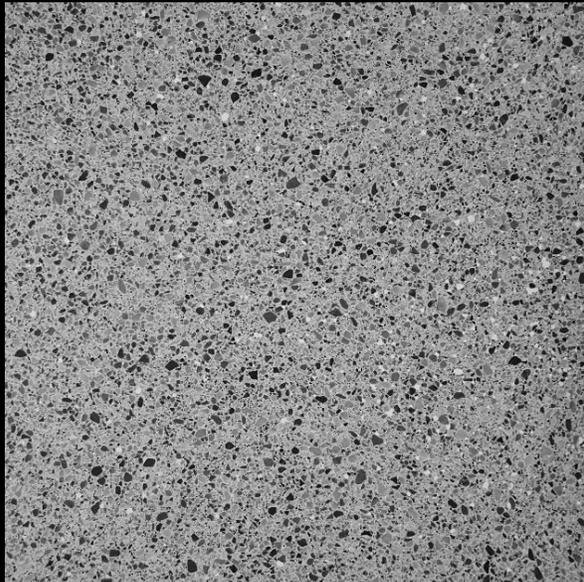

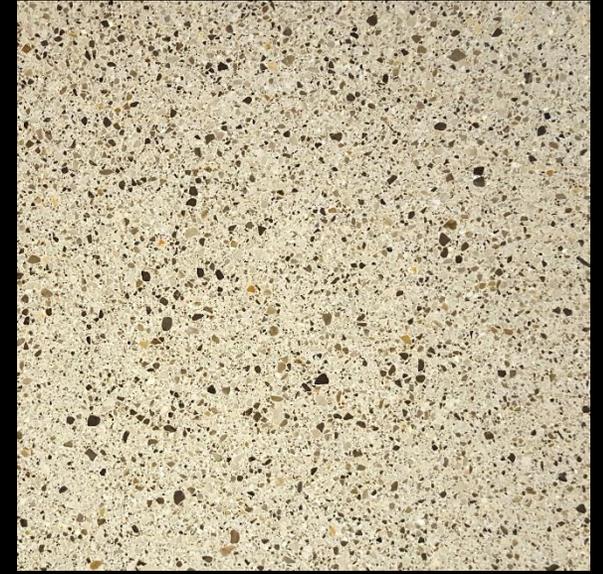

+

= ARTEGO[®]SF

Using sand aggregates ARTEGO®SF retains all of the performance characteristics of ARTEGO®TZ

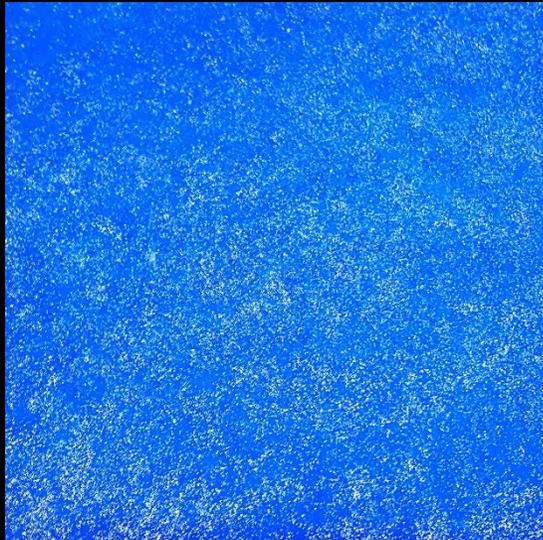

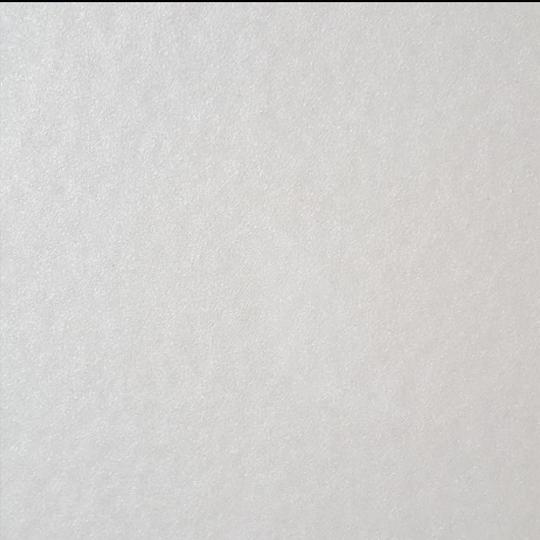

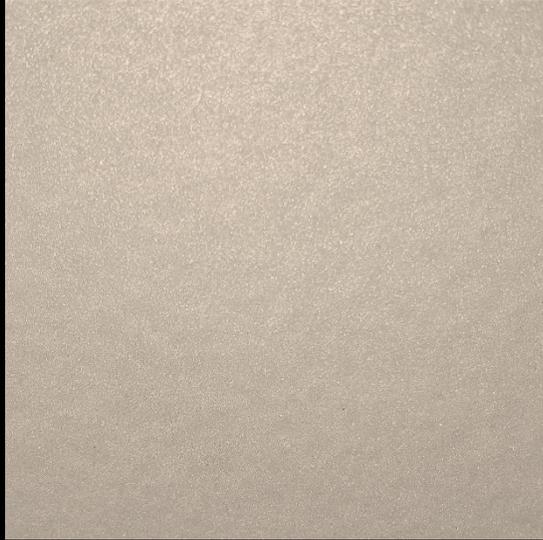

ARTEGO[®]MP is
an ultra-durable
finish that creates
a powerful
effect in high
visibility spaces

Limitless customization with varying amounts of patina – each panel becomes a brushstroke in a raised floor canvas

From monolithic, to textured, to mottled

As different light sources and viewing angles are used a wonderful play on the reflective abilities of the floor give a rich and vibrant feel to the space

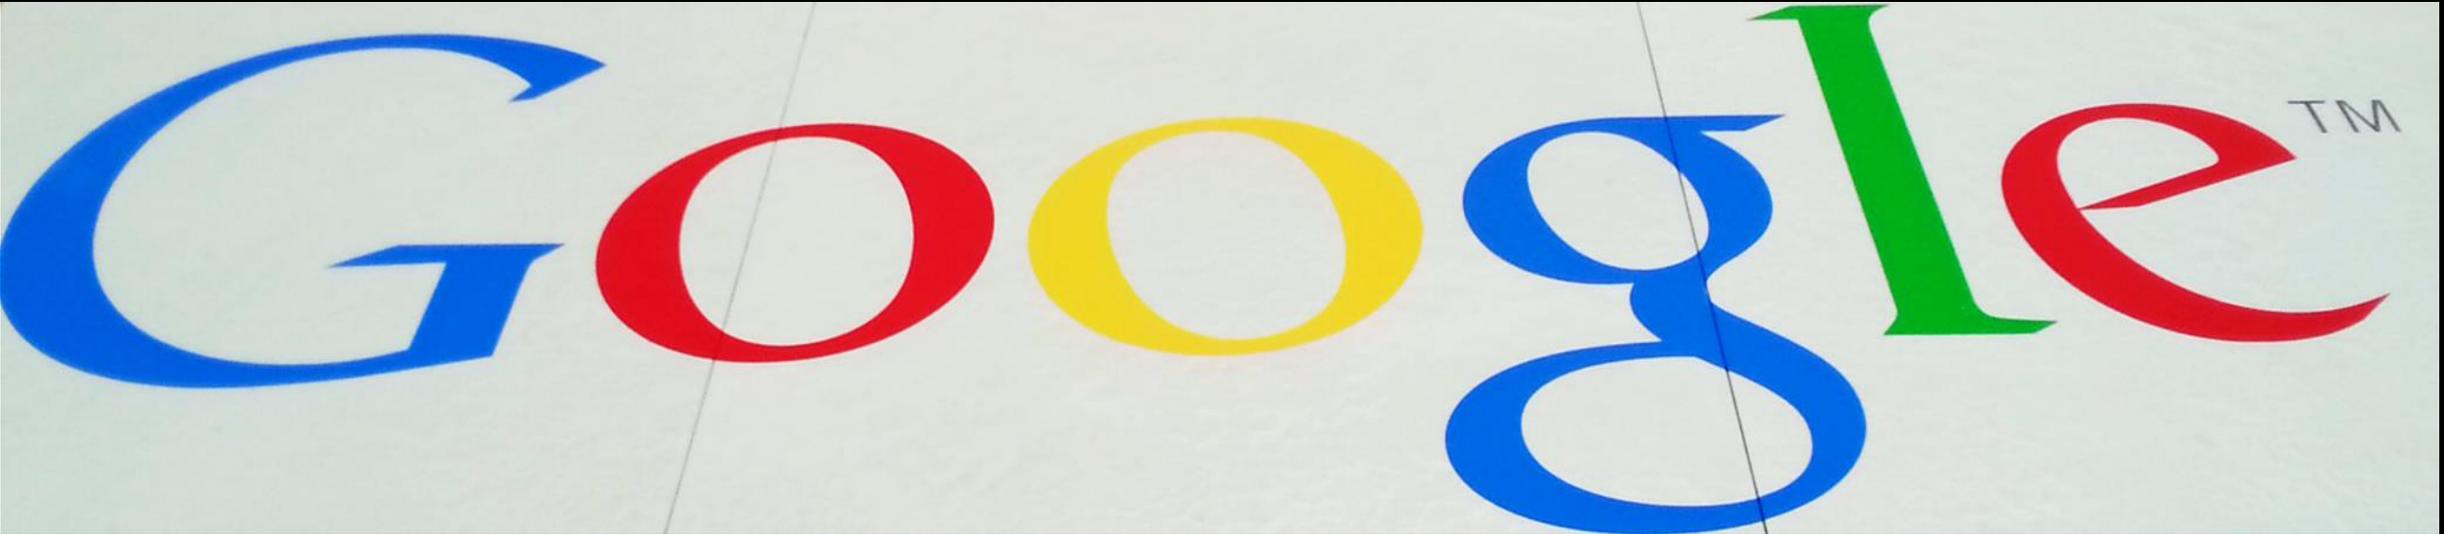

ARTEGO®MP is a finish that you can apply to various substrates and mount to vertical surfaces to match the floor or to simply refresh tired spaces

ARTEGO® LOGOS

...create
POWERFUL first
impressions...
