I'm Arline Bremer, manager by day and whimsical artist by night.

I've always been an imaginative person and my grandma seeing that spark, taught me how to paint with oils when I was a child. Since then, I continue to explore different mediums and types of art, tumbling deeper down the creative rabbit hole.

In 2018, I started reverse painting on glass. I enjoy the challenge of having to paint the details first, then build the layers over that. There's great depth and luminosity that's created by looking through the glass.

I currently live in sunny Florida where the Gulf coast and outdoors inspire me.

Member of the Creative Arts Association of Lakewood Ranch and Parrish Arts Council.
