

REVAMP

MAKE YOUR WARDROBE WORK FOR YOU

January 26, 2011

Hello Revamp Clients and Friends,

It is easy to think about spring when the weather is warm and the sun is shining! Normally the idea of t-shirts and dresses have not begun to enter our minds in January, but this year it is hard not to think about putting away those cashmere sweaters and boots (however, I don't recommend that just yet!).

The good news for the upcoming season is that you can't go wrong! Your sense of color and style is current and hip because it's all showing up. Neutrals and bright colors, skinny and flared jeans, gold and silver jewelry.....be creative and have fun because you can't go wrong this spring!

Need a fresh pair of eyes to help you mix and match your wardrobe and accessories? I would love to help.

Here's to the start of a wonderful New Year and continued spring-like weather to go along with it!

Beth
