

Sunshine State Superkids and Norelli Family Foundation have for free ultimate fun family day. Sunshine State Superkids will supply the cars, equipment and food for the day, all you need to do is bring the children out. The cars are 2 seats where one side is a 7-18-year-old driver and the other side can be a younger child or any child with disabilities. Sunshine State Superkids has put this program together for the children with disabilities, (any disability). Sunshine State Superkids have several race day events throughout central Florida and (*) have also teamed up with other organizations for their events.
