

Books on Boucher Little Free Library and the Canine Cafe

Robert and Kimberly Richer are the proprietors of Books on Boucher and the Canine Café – Eastport. Their mutual love of books and libraries was the impetus for installing their Little Free Library on Boucher Ave. Seeing the growing number of little free libraries pop up in Eastport, along with the closing of the Anne Arundel Community Public Libraries during the pandemic, pushed them to install one of their own. The LFL website made it easy to choose a weatherproof design made of plastic lumber from recycled milk jugs, with the post made in America by Amish artisans.

They stock both adult and children’s books and often see families choosing books while stopping at the Canine Café to give their pup a bone. Robert and Kimberly have met so many neighbors and are pleased to see that books are being taken and new ones are being shared. One comment they often receive is that it would be great if there was a coffee/tea station as well, so do not be surprised if you see one pop up one day!

Books on Boucher and the Canine Café – Eastport welcome you and your pups to stop by soon!
