

"After extensive review of the literature the RACP reaffirms that **there is no medical indication for routine neonatal circumcision.**"

- The Royal Australasian College of Physicians Policy Statement On Circumcision

Sexual and Reproductive Rights Begin at Birth

How much can you cut a girl's genitals before it violates her right to bodily integrity?

- Removing her labia
- Removing her clitoral hood
- Removing part or all of her clitoris
- Sewing her vagina shut

I think male circumcision is worse than an incision of the girl.

Female Circumcision Victim**

All children, both boys and girls, have a right to genital integrity.

How much can you cut a boy's genitals before it violates his right to bodily integrity?

- Removing the foreskin of his penis
- Slicing the top of his penis
- Slicing the bottom of his penis
- Removing his testicles

"Routine infant male circumcision performed on a healthy infant is now considered a non-therapeutic and medically unnecessary intervention."

- College of Physicians & Surgeons of British Columbia, Circumcision (Infant Male)
