## **Biography**

Jessica Hickman has worked as a geologist at Hickman Geological Consulting, LLC for the past 3 years. She specializes in conducting mineral valuations, data collection, and interpretation of well logs. This work supports HGC's valuation, exploration and A&D divisions. In addition to these duties, she also serves as the company's office manager and accountant.

Mrs. Hickman began her career at Marshall Miller and Associates in Bluefield, VA in 2003 as an assistant geologist where she worked for two years. She dedicated her time primarily to the coal industry by assisting with coal reserve reports and coalbed methane desorption calculations. Prior to employment she graduated with a Bachelors of Science in geology and minors in Anthropology and Physics from Radford University.

In addition to her job duties Mrs. Hickman serves Young Professionals in Energy (YPE) Pittsburgh as the organization's Membership Coordinator.
