### Play Beyond the Sandbox

We are a social skills program designed for your pre-school through middle school aged children. Our program is uniquely designed to support each child's individual differences while encouraging socialization and relationship building through facilitated play, structured cooking activities, movement, role play and circle time. Winter sessions begin January 2018!

Groups are led by Rebecca Weiss, a Clinical Social Worker (LCSW)

And Danielle Fluger Cohen, a Speech-Language Pathologist (MS, CCC-SLP)
