**Add the Antimicrobial Power of Silver
to protect your new hardware!**

AGION® silver ion protection is available on any item in satin or distressed lacquered finishes for a **25%** upcharge to the base price of the item. To learn more about Agion®, go to <https://www.sciessent.com>.

To add AGION® Protection to your products, simply add a **“G”** to the start of the finish code. The leading **“G”** before the regular finish codes will tell us you want AGION®.

For example: 143 knob in satin chrome (143-26D) has a list price of \$22.00 – To order the same item with AGION® protection, change the finish code to G26D and the new item is 143-G26D with a list price of \$27.50 (\$22.00 plus 25% upcharge for Agion protection)..

ORDER GUIDE

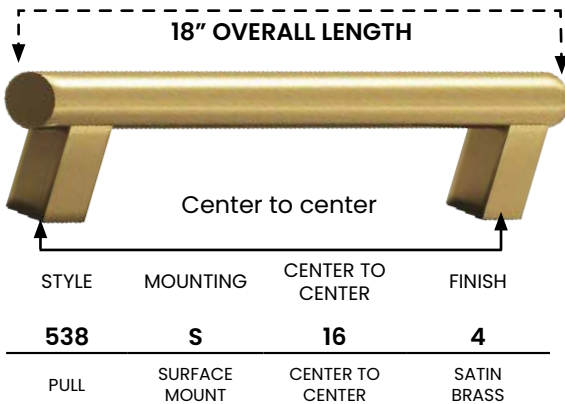

TWO-TONE CAPABLE HARDWARE

PART NUMBER: 1335-6-15CCX10

When ordering two-tone (combination of two finishes) items, FINISH 1 always refers to the part of the item that touches the mounting surface and FINISH 2 always refers to the accent color.

SURFACE MOUNTED PULLS / TOWEL BARS

If the pull or towel bar can be either through bolt, surface, or back-to-back mounted, make sure you specify the type of mounting. In the above example, this towel bar will be surface mounted on the wall, so the mounting type "S" is used. See pages 7-8 for mounting options.

DOOR AND SHOWER DOOR PULLS - BACK-TO-BACK

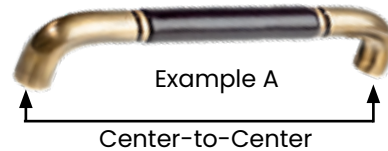

When specifying handles for regular or shower doors, please be sure to provide the following information:

- Thickness of the wood (typically 1 3/8" or 1 3/4" thick) or glass door (typically 5/16", 3/8", or 1/2" thick)
- Diameter of the drilled hole when the application is for glass

HOW TO ORDER CUSTOMIZED LENGTH COLONIAL BRONZE PULLS

All pulls where "per-inch" pricing is offered indicates that the pull can be ordered in custom center-to-center and overall length dimensions.

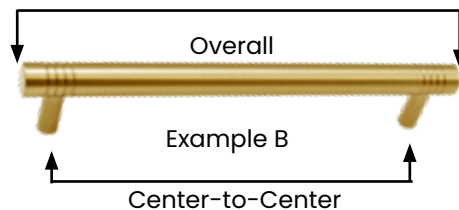

- Determine the center-to-center dimension required. If the CtC is not a whole number, round up to the nearest whole number.
- If the overall length cannot be changed once the center-to-center dimension is established (Example A below), the pricing is determined simply by the rounded-up center dimension of the pull *times* the per-inch price. The only time a setup fee will apply is when the requested overall length is a dimension *OTHER* than full or 1/2" increments. For example:

PRICE for 12" CtC: 12 x (Per-Inch Price) = List Price

PRICE for 12 3/8" CtC: 13 (rounded-up length) x (Per-Inch Price) + Setup Fee = List Price

- If *both* the overall length *and* center-to-center dimensions can be customized (Example B below), the pricing is still a function of the overall length, but the additional setup fee will apply if *either* the overall *or* the center-to-center dimension is a dimension *OTHER* than full or 1/2" increments. For example:

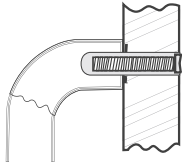

PRICE for 12" Overall with 9" CtC: 12 x (Per-Inch Price) = List Price

PRICE 14 1/4" overall with 12 3/8" CtC handle: 15 (rounded-up length) x (Per-Inch Price) + Setup Fee = List Price

Terms and Conditions of Sale

Terms

- Net 30 days.
- Interest at a rate of 1.5% per month on invoices over 30 days may be applied.
- Past due accounts will be placed on credit hold. No orders will be processed, nor shipments made until the account is brought within terms. In addition, work on existing orders on the factory floor will be suspended until such time as the account is brought within terms.

Prices

- All prices are in US Dollars.
- Subject to change without notice. Orders will be billed at price in effect when the order is received, except for written quotes specifying otherwise.
- Colonial's reputation for quality, integrity and honesty is very important to us. As part of this ongoing effort to safeguard our reputation, we have a unilateral Minimum Advertised Price (MAP) policy. If a price for any Colonial Bronze product is included in any advertisement, the price must not be less than 80% of the Suggested Retail Price then in effect. Advertising includes, but is not limited to, printed advertisements, promotional mailers, catalogs, faxes, radio, and all electronic media, including web sites.
- In the event that we are informed the minimum advertised pricing policy has been breached and upon fair and adequate proof, we will issue a written warning reminding the offending party of the policy. Any subsequent breach of the policy by the same party will result in nullification and termination of any previous authorizations and agreements, either verbal or in writing, to resell our products.

Setup Fee, Per-Inch Pricing and Custom Leather Cutting Die Charges

- A \$250.00 list setup fee applies for custom-made items, such as those manufactured in size increments other than half-inch or full inch increments.
- **When computing prices for custom length handles using per-inch prices, multiply the price per inch times the overall length, rounded up to the nearest whole inch.** See page 6 for examples and details. Please keep in mind that custom items that are BELOW the overall length of the shortest standard length may still cost more due to the custom nature of the manufacturing process.
- For custom length Tanner's Craft® handles L270, L271, L272, L273, L275, L276, L460, and L711's, in the event we do NOT already have a cutting die for the custom leather size desired, a \$250 LIST cutting die charge will be added to the cost. The cutting die will be used to cut the leather precisely to fit your custom length handle. Customer Service will advise you on whether or not the additional die charge is required.

Shipments

- Ground freight will be pre-paid on all orders over \$3,500 net; all other shipments are F.O.B. Torrington, CT. Shipments to Alaska, Hawaii, and points outside the United States: Freight-prepaid, shipments will be forwarded at our expense to the nearest continental port of embarkation; all other shipments are F.O.B. Torrington, CT.

- Purchaser assumes full risk for loss or damage in transit upon our delivery to the carrier. Claims for damage must be filed with the transportation company. Colonial Bronze retains the right to designate carriers and will not accept any additional handling or storage charges.
- In the event that the ship-to address supplied by you is incorrect and an Address Correction Fee is imposed by the common carrier, the correction fees will be billed to you separately.

Finish Care

- To properly clean your finishes, use a soft, damp cloth. Liquid dish washing soap can be used if needed. Do not use abrasive cleansers: they will scratch the protective coating, damage its clarity, and void your tarnish-free warranty. Do not use any metal polishing compounds (Flitz®, Brasso®, etc.) - the use of such products will damage the protective coating and void your warranty.

Custom Leather Colors for Tanner's Craft®

- If leather other than our standard leathers is desired, we need the following information: (1) the color and source of the leather (i.e., Edelman, Garrett, etc.) and (2) the Tanner's Craft® item number and quantity needed. Once we review the feasibility of your selection, we will tell you how much leather you need to purchase. Please bear in mind that most leather suppliers have minimum purchase requirements of a half hide. We will use the requested leather to fabricate the custom hardware and endeavor to return as much of the remaining leather as possible in a usable form to your customer.

Expedited Manufacturing

- We have a team prepared to work additional hours beyond those normally scheduled. We can expedite your order for a 30% upcharge over the net invoice, with a minimum fee of \$100 NET. Please contact us to discuss your delivery requirements inasmuch as our ability to offer the expediting service is subject to our available resources.

Returned Goods Policy

- RGA must be requested within sixty (60) days of the invoice date for the product being returned.
- Upon request, a Return Goods Authorization (RGA) will be faxed or emailed to you. A printed copy of the RGA must accompany the goods being returned before credit can be issued.
- The RGA number must be written on the outside of the shipping box.
- All authorized returns, except for customer cancellations, must be sent via UPS using UPS return labels that Colonial Bronze will send you via your email address.
- Upon our receipt of items returned pursuant to an RGA, Colonial Bronze will issue you a credit. **Do NOT deduct credits to which you believe you are entitled from your payments of outstanding invoices. Doing so will delay proper crediting of your payments.**
- **IMPORTANT: If merchandise is damaged in return shipment due to improper repackaging, no credit will be allowed, regardless of the reason for its return.**
- For returns other than defective merchandise, the following restock fees will apply:
 - Standard Colonial single finish items - 25% restocking fee will be charged.

- Two-tone finish items - 50% restocking fee will apply.
- Tanner's Craft® leather - 50% restocking fee will apply.
- Josef Ruefelli collection - 50% restocking fee will apply.
- Items manufactured to your custom dimensional specifications cannot be returned.
- Orders for individual pieces or samples cannot be returned.

Cancellation Policy

- Orders for items with custom dimensional specifications can only be cancelled within 48 hours of the time you receive confirmation of your order. Cancellations received after 48 hours will be subject to a 20% fabrication fee because the order will have been released to the factory floor.
- Orders for Tanner's Craft® leather items may only be cancelled within three days of the date we send you a confirmation of your order since all Tanner's Craft® products are made specifically to your order.

Limited Lifetime Warranty Information

- All Colonial products are protected by the Finishes for Life™ protective clear coat unless otherwise noted in our catalog, or unless specifically requested otherwise. If a finish is requested to be produced without a protective clear coat, such as 3A, 4A, 10BU, or any other unlacquered finish, the Lifetime Finish warranty is not applicable.
- We warrant to the original purchaser that any product protected by the Finishes for Life™ protective clear coat will be free from tarnishing, discoloration, and pitting for the life of the product, subject to normal wear and tear. Scratches or other normal signs of use are not covered by this warranty. Should any product covered by the Finishes for Life™ protective clear coat fail, we will, at our option, repair or replace it.
- The use of metal polishes (Flitz®, Brasso®, etc.) on clearcoated finishes will void the warranty because most metal polishes will damage the clearcoat, leaving the finish unprotected.
- These warranties apply only to interior use of Colonial Bronze products and do not extend to use in an exterior setting (see Note 1 below). Failure to follow the Finish Care instructions above will void your warranty.

NOTE: Our obligation under this warranty extends solely to the replacement or repair or the hardware at our option and does not extend to any costs incurred to remove or reinstall the product.

¹No agent or representative of Colonial Bronze Company has the authority to waive, alter or supplement these warranties; make any representation or warranty not contained herein; or extend these warranties to other than the original end user of the product.

Colonial Bronze is not liable for indirect, incidental, or consequential damages with the use of its products. This limitation includes, but is not limited to, the cost of removal and/or reinstallation, shipping damages, damages occurring during or after installation or removal, damages from chemical use or improper cleaning or polishing agents, and damages from careless handling.

These warranties are given expressly and in place of all other expressed or implied warranties of merchantability or fitness for a particular purpose. Please note that some states do not allow limitations on incidental or consequential damages, so the above limitation may not apply. These warranties give you specific legal rights, and you may have other rights which vary from state to state.

The TANNER'S CRAFT®

LEATHER COLORS AND APPEARANCE

PLEASE NOTE

- Leather is a natural product and variations in the appearance of the leather are both normal and to be expected.
- If your customer is concerned about normal color variations, we can arrange for a sample cutting for approval, or CFA, of the leather selected. If a CFA is requested, we will warrant that the leather that will be delivered will match the CFA sent to you. Please advise us as to the item and quantity to be ordered so we can ensure that we hold the necessary amount of material needed for the order.
- **If a CFA is NOT requested, the leather delivered will match the current die lot that we receive from the leather. We cannot be held responsible for variations, and such variations do not constitute a defect.**

LEATHER AND METAL FINISH CARE

- Leather is not something that should be frequently cleaned. Leather will age with use and may darken over time.
- May be cleaned with proper leather cleaner that helps preserve the hide's natural oils as opposed to one that strips the natural oils off.
- Always test the cleaner of your choice in an inconspicuous area to ensure that it is compatible with your leather.
- See **Terms and Conditions of Sale** on page 9 for Metal Finish Warranty.

IMAGINE THE CUSTOM POSSIBILITIES

Colonial's custom manufacturing capabilities are always available to our customers.

That expertise, when combined with the beauty of Leather, makes for a truly creative result - a custom door handle wrapped in Shagreen Gris Ligeró or an L828 handle wrapped in customer-supplied stingray skins.

Custom Shagreen Gris Ligeró Leather Wrapped

Cabinet Door Pull

IS LEATHER A PRACTICAL CHOICE FOR THE KITCHEN?

WELL, EVOO DOESN'T FRIGHTEN OUR LEATHER...

(AND NEITHER DOES ANY OTHER KITCHEN OIL OR GREASE)

We rubbed our leathers with olive oil, butter, and other greasy kitchen condiments to test the assertion that it could stand up to the rigors of the kitchen, and every piece of leather came through these tests unfazed.

Being true sceptics, however, we wanted to really see how durable leather truly is, so we conducted an experiment:

We removed the standard chrome pull on our factory men's room door and replaced it with a pull wrapped in leather. We wanted to see how leather stood up to frequent use in an environment where **grease, buffing compounds, machine oils** and **similar soils** were the norm.

We are pleased to report that even after **more than two years** of use, the leather remained beautiful despite the soils, grease, and grime of 40 men who washed up in that room at least three times every day. The un-retouched before and after photos below speak for themselves.

DURABILITY TEST

HOW HARD DID WE WORK THE LEATHER?

JUST THE FACTS...

40 MALE EMPLOYEES x 3 TIMES EVERY DAY x 5 DAYS EVERY WEEK x 127 WEEKS SINCE INSTALLATION =

76,200 DUTY CYCLES

That equates to an average family of four's usage for **17 years**

**AFTER MORE THAN 2 YEARS
IN USE BEFORE LAST
CLEANING**

For custom length Tanner's Craft® **L270, L271, L272, L273, L275, L276, L460, and L711's**, in the event we do **NOT** already have a cutting die for the custom size desired, a **\$250 list** cutting die charge will be added to the cost.

The cutting die will be used to cut the leather precisely to fit your custom length handle. Customer Service will advise you whether the additional die charge is required.

See **page 6** for custom length Instructions.

CUSTOM DESIGNS

The means we've mastered applying Josef Ruefelli designs can be utilized to apply any number of patterns onto your cabinet hardware.

Have a center-point glass mosaic? Email us an image.

Have a logo, trademark, or other meaningful image? Email us the artwork.

Let's make your piece truly yours.

See **page 6** for custom length Instructions.

ONLY
THE BRONZE
CAN OFFER

- ✔ **Custom capability** - 130,000 unique items and counting
- ✔ **A Lifetime Warranty covering tarnishing, flaking, pitting and discoloration**
- ✔ **Crafted from 93% recycled brass - certified!**

Since **1927**, Colonial Bronze has been crafting fine cabinet and architectural hardware.

Unlike our competitors, we **DON'T** import finished hardware - **never allowing** another party to have an influence on the quality products that bear our name. We control every aspect of our production and the level of quality that goes into our products.

Selecting Colonial Bronze means selecting products hand made by **American craftspeople: the finest available anywhere.**

Fine Brass Hardware Since 1927
