

**Consent For Services Form**

I, \_\_\_\_\_, am the legal caretaker and give my consent for *Speech For Each, LLC (SFE)* to be in direct contact with \_\_\_\_\_, whose date of birth is \_\_\_/\_\_\_/\_\_\_, for the purposes of providing an evaluation, treatment, and/or consultative services.

I also give permission to *SFE* to exchange information with all following people and/or entities. Please list and provide an email for written documentation of any exchanges.

<i>Name</i>	<i>Contact email address</i>

I understand that *SFE* will not share information regarding the above-mentioned client with any individuals not listed on this form without additional notice, in writing via email or updated Consent form, and that all medical records, treatment notes, and other individually identifiable health information will be kept properly confidential.

**Services & Therapy Rates**

*SFE* provides weekly intervention services that can be modified (increased or reduced), or terminated at the caregivers’ discretion, given a two-week written notice to the practice. We follow a 45-minute therapy format that typically breaks down to 30-minutes of direct services and 15-minutes of administrative work and caregiver communication. That being said, private sessions can, and often are, booked consecutively to best meet scheduling availability and the needs/goals of each client. As such, frequency of services can be considered in both daily and weekly increments as a further means of customizing your private speech-language therapy experience with *SFE*. As clinically appropriate, we can consider daily frequency options by scheduling session blocks of 45, 90, 135, or 180-minutes while we establish weekly frequency.

- The fee for each scheduled in-person or telehealth individual speech/language therapy session, observation/interview, and/or assessment is \$165.00 per 45-minute session.
- The fee for each scheduled in-person or telehealth group speech/language therapy, observation/interview, and/or assessment is \$125.00 per child.
- The fee for preplanned/prescheduled in-person team meetings or telehealth conferences, such as IEP and Child Find meetings, is \$165.00 per 45-minutes, with the rate rounding up a second charge at 60/60+ minutes.
- All written reports are billed at a flat rate of \$165.00 each. This includes but is not limited to formal reporting such as evaluation reports, Plan of Care reports, and Letters of Medical Necessity.

I understand that I will also need to read, sign, and date the Billing Policy & Credit Card Form as part of the *SFE* onboarding process.
