Dilley Ranch 2013 Conservation Action Plan

Jim, here is the Dilley Conservation Plan for this year. Please review and add any other recommendations you have for 2013. Dave and I have visited with J. D. and understand this will be a 5 year plan, with NRCS oversight. We will submit a yearly plan with NRCS for yearly conservation actions to be taken, with NRCS, committee and BOD recommendations. Please advise us with any additional requirements you may need from the Assoc. to file our plan with you and J.D.

- Fencing improvements/repairs approximately one and half miles new fencing, along U.S. Forest border and repairs to existing old fences same areas.
 - Weed control (thistle) in pasture along 271 near old mining claims
 - Willow tree removal/control near stream bed along CR 271 old mining claims
 - Water tanks installed and locations sites identified
 - Water improvements (new stock tank) installed in existing location
- Interview possible Grazing Lease for summer grazing per recommendation from NRCS Field Rep.
 - Draft completed Grazing Long Range Plan for implantation
- Work closely with, Jim Sperry, NRCS Field Representative to implement recommendations

The undersigned approve and acknowledge the above plan for the 2013 calendar year.
