LOCAL - ON TIME - EVERY TIME

Located in Southern California, Basic Materials serves as a distributor for specialty construction and production materials in the West.

On-site loading and unloading, materials handling and billing, we can handle a variety of construction, production and industrial materials - and can provide a home base for manufacturers looking to inventory materials on the West coast.

Basic Materials provides flexible scheduling and can provide off-hour or weekend materials pick up with advance arrangements.

Basic Materials can handle shipments to destinations and quick order processing for contractors and manufacturers who need to source materials immediately or on short notice. We can work with your sales group on suggested minimums and maximum level of items needed to service key accounts.
