Formulated to meet the requirements of the competitive performance horse & pleasure rider. Cool & Complete is a grain free pellet, low in starch & high in fibre, designed to maintain hindgut activity. This formulation is free of whole grain, this ensures a low Glycemic Index (GI) to provide slow-release energy, thereby reducing fizzy behaviour related with high grain diets.

The Cool and Complete formulation is high in Digestible Energy, which is important for muscle contractions, regulation of body temperature and various metabolic processes needed for the performance horse.

Why 14% protein? – Protein is required for weight gain and improving or maintaining muscle condition & top line. Protein is also involved in muscle repair & regeneration after strenuous exercise, therefore assisting recovery. A lower protein pellet may only provide minimal maintenance levels, which could lead to lack of muscle development, stamina & weight loss, thereby reducing performance.

The Pelleting process gelatinizes the starches in grains, reducing bacteria such as salmonella & increases digestibility. This process causes minimal damage to sensitive nutrients. Extrusion processes are subject to extremes of pressure, temperature & moisture, which can have a detrimental effect on some nutrients such as vitamins.

High quality ingredients are used & blended to supply balanced levels of Energy, Protein & essential amino acids. Vitamins and Minerals are sourced from Europe, they are coated to provide stability and resist degradation during the pelleting process.

**Selection of the following ingredients:** Millrun (Bran, Pollard, Wheatgerm), Soya bean, Lucerne, Vitamins, Minerals, Salts, Limestone.

Minumum Protein:	14 %	Salt	1%
Digestible Energy:	12 MJ/kg	Phosphorous	.8 %
