

Luke Skywalker Saves the Planet of Tatooine

Luke Skywalker needs some lightsabers to help save the planet of Tatooine.

Josh, Jack, and BB8 want to help Luke Skywalker.

There are 9 lightsabers behind the secret wall.

Roll the dice to find out how many lightsabers that they take to Luke Skywalker to save the planet of Tatooine.

- Record what happens: $9 - 4$ makes 5 lightsabers left behind the wall.
- Prove it! $9 - 4 = 5$ because $5 + 4 = 9$
