### **Ponte Health, P.A. Unveils Cutting Edge Concept Design for New Medical Facility**

**Orlando, FL** – November 10, 2017 – Ponte Health, P.A., a leading Orlando-based architecture and construction services firm, is pleased to release its rendering of a state-of-the-art medical facility that will house MMG Emergency Physicians, a Central Florida medical group.

For the first time, MMG Emergency Physicians will be better positioned to deliver world class hospital services and outstanding customer care to meet the needs of its healthcare patients. Aesthetically, new plans show a compact, clean, and contemporary design that will help ease anxiety and enhance healing in patients. The building is projected to be 17,000 sq. ft. upon completion. Real estate selection and sale is pending in Osceola County. Ponte Health is also assisting in the real estate selection process, being handled chiefly by Luis Figueroa, Broker and Founder of Gold Bridge Realty.

“The new MMG facility will not only be sustainable, seeking to get the highest possible LEED (Leadership in Energy and Environmental Design) rating, but it will also be smart,” according to Tabitha Ponte, CEO and Lead Architect at Ponte Health. “It will be a new kind of intelligent medical operation,” she states. The plan offers a full suite of hospital focused technologies and amenities, and is expected to begin operations by January 2019.

**About Ponte Health, P.A.**

Founded in 2016, Ponte Health, P.A. has quickly become a premier professional architecture and construction services firm, serving the healthcare market, exclusively.

Headquartered in Orlando (Lake Nona Medical City), Ponte Health specializes in single-source delivery, resources management, and best outcomes. The organization also offers services through its Chicago, Illinois office. Orlando Health is included on their list of local clients. Ponte Health is also a qualified firm for Florida Hospital, and has made a long-term commitment to help expand Nemours Children's Hospital in Lake Nona.
