

NCRTAC Injury Prevention Committee Meeting  
March 9, 2023  
Aspirus Wausau Hospital/Teleconference

Members present: Amanda Tabin & Liz Kracht

Recorder: Amanda Tabin

Information shared during committee meeting:

Reviewed NCRTAC survey results around injury prevention topics of interest, noting that older adult falls and Stop the Bleed were the 2 highest vote getters.

Next steps:

- Stop the Bleed: Amanda, Liz, and Michael to set up a time to meet to review contents of RTAC's existing Stop the Bleed kits to determine if any items need updating/replacement and discuss whether additional kits or supplies are needed to meet region's needs.
- Older Adult Falls: Are there areas/counties within the region that could benefit from having someone(s) trained as Stepping On facilitators? Amanda to follow up with WIHA to learn about potential gaps in offering this program throughout our region.
