on the  
Energy 100  
Award list**

**Lawrence Berkeley  
National Laboratory**

The Department of Energy and its Citizen Judges honor 100 of the best scientific and technological accomplishments during the last 23 years. These discoveries demonstrate our commitment to save consumers money and improve the quality of life. These highest ranked innovations demonstrated benefits to the American public, a contribution to U.S. competitiveness in the global marketplace and the potential for significant future growth.
