## **ADDITIONAL METER RENTAL CHARGE**

If a customer requests the installation of an additional meter to receive credit for clear water not discharged into the sanitary sewer system, or if a sewerage service customer who is not a customer of the water utility requests the installation of a meter to determine the volume of sewage discharged into the sanitary sewer system, the utility shall furnish and install this additional meter. This rate shall be applied only to single-family residential and small commercial customers. A rental fee shall be charged for the use of this meter and the following rates shall apply.

- **5/8-inch meter - \$3.50 per billing period**
- **Initial Meter Installation Charge - \$35.00**

When installing a second meter for irrigation or curbside water, the meter must be installed as a water only meter. The drawings show two possible arrangements for a water only meter.
