

35TH ANNUAL TRADE SHOW & SEMINARS

"ROOFING WEEK IN CHICAGO - 35 YEARS STRONG!"

As the Chicago Roofing Contractors Association's 2018 President, I invite you to attend and participate in the CRCA Trade Show and Seminars, January 18-19, 2018. As CRCA Attendees and Exhibitors will tell you, this show continues to deliver quality education and the best in Roofing and Waterproofing Exhibitors. Best of all, CRCA's Exhibit Hall and Seminars on Thursday afternoon and Friday are FREE!

CRCA continues to provide a venue for all Roofing and Waterproofing Contractors, Consultants, Manufacturers, Architects, Specifiers, Building Owners and Managers and Building Code Officials to expand their knowledge in technology, safety, products and services, all aimed at developing the highest level of Professionalism. In addition to the CRCA Trade Show & Seminars, I invite you be active in our industry by joining CRCA as a member and volunteering for a CRCA Committee.

CRCA's Trade Show & Seminars continues to build on its national reputation for cutting edge programming through the hard work of Trade Show Committee Members Rod Petrick, Greg Dedic, Matt Adler, Dave Good, Greg Johnson, Jason Peterson, Ryan Petrick, Ross Ridder, Tony Roque and Matt Wehrle. On behalf of CRCA's Trade Show Committee and Board of Directors, a big thanks to the Exhibitors and Sponsors for helping make this event a continual success.

The 2018 theme, "Roofing Week in Chicago - 35 Years Strong", sets the tone for the CRCA's Education Sessions beginning with Wednesday's Chicagoland Women in Roofing and Emerging Leader forum "Defining Career Path Strategies". Thursday's CRCA Roofing Industry Breakfast will give attendees a sample of the full range of all programming, with the seminars beginning Thursday afternoon and continuing Friday. Come learn about Ventilation & Balance, Litigation from a Roofing Industry Perspective, I-9 Compliance, Safety, Insurance Claims Navigation, Structural Lightweight Concrete and ending with important Code Updates. CRCA's wide-ranging programming and exhibits are geared for those who install Steep and Low Slope Roofing, those that spec it, those that regulate, those that manage and more.

This year's CRCA Trade Show Committee's goal is to offer the educational resources for attendees to develop best practices which will ultimately provide building owners and managers the best roof, waterproofing, insulation and/or air barrier that can be found anywhere. Register online today at www.CRCA.org. See you in January!

CRCA Friday Seminars - Free to all

7:00-9:00 am – “Silica Standard Training”.

Presented by the CRCA Safety Committee, attendees will receive in depth training on compliance with the new OSHA Silica Standard. Identifying who needs to comply, steps to protect workers and the recordkeeping required will be covered. If your workers are on jobsites where silica dust is present, attend this is important session! Other Safety updates too!

7:45-8:45 am – “Benefits of Using an Insurance Claim Adjuster” Wade Tutt (Paramount Adjusters) will present on benefits of using an expert when roofing losses occur on commercial buildings. Contractors, Consultants, Specifiers, Building Officials and Building Owners will benefit as he connects the dots between the loss, claims navigation and how to be proactive for the future.

9:30-10:30 am – “Structural Lightweight Concrete – Proceed with Caution”. Using data from CRCA, CRC, NRCA, CRCA (Canadian), The Roofing Industry Alliance For Progress, GAF, Johns Manville & Soprema funded research, Matt Dupuis, PhD PE (SRI) will share continued findings on how Structural Lightweight Concrete (SLWC) affects roofing – during operations and long after the roofing contractor is off the project. Using the Midwest's weather as a control, learn the effects of SLWC on roofing operations, precipitation / SLWC drying capabilities, insulation selection, vapor retarder decisions, design and more.

11:15 am-12:15 pm – “Roofing Technical Issues – Can You Comply?” Mark Graham, (NRCA Associate Executive Director of Technical Services) will present important roofing technical issues including what to expect in the new 2018 International Codes, the 2021 International Energy Code development process and other key technical issues that affect roofing contractors, consultants and design professionals' delivery of a functioning roof assembly to the building owner or manager. Don't miss this fast paced and informative seminar!
