

We have 2 year old purebred bulls for sale

They have been raised on hay and pasture

Built to last out of top quality A1 and pasture bulls

Black Angus

OFI 13B, sired by our MVF 96R, still producing great calves after 9 years on the farm, out of Mountainview Farms in Manitoba. \$3500

OFI 72B, sired by Cudlobe Timeless 30Z, out of the highest Carcass herd in Canada. \$3500

Gelbvieh

OFI 3B, Black Gelbvieh, out of herdsire Towerview Yogi, with a ww index of 108 \$3350

OFI 11B, Red Gelbvieh, out of herdsire Mr Wize Guy, with a great set of feet and solidly built. \$3350

Irish Black

3A - this fellow was imported from Ohio with his mom as a newborn two years ago. We are one of only two herds in Canada with Irish Blacks, and this will be one of only five or six Irish Bulls available in Canada this year, and the only one east of Alberta. Explosive growth mixed with predictable genetics and great carcass are what sets Irish Blacks apart. The ideal bull for the commercial cattlemen. Guaranteed to cover 40-50 cattle every breeding season. Cut your bull requirements in half, and have everyone calve at the same time. \$4500

Also a group of 40 feeder cattle, 500-800 lbs, at current market price.
