

Disclaimer

Animal Reiki Session Disclaimer:

Please be advised that animal Reiki should be used as a support system to help promote health, healing and overall well-being, and it should never be used exclusively as a substitute for quality, professional Veterinary care. Animal Reiki practitioners do not diagnose conditions, nor do they prescribe or perform medical treatments, or interfere with the treatment of a licensed medical professional. Animal Reiki practitioners work in partnership with animal healthcare providers, animal welfare organizations, and practitioners of other healing disciplines.

Also, please be aware that animal Reiki practitioners do not manipulate energy or control the Reiki sessions; animals are the leaders in the process, taking only the amount of energy they wish to receive, if any at all. Therefore, the healing process is completely up to the animal, should they choose to accept Reiki. Reiki healing energy goes to those issues most in need of healing, even those unknown to the practitioner or animal caretaker—regardless of intentions and expectations.
